A Page-Turning Family Drama that Keeps You Guessing to the End

Billie, a vibrant, beautiful, outdoorsy California mom, vanishes on a solo hike in California's Desolation Wilderness and leaves behind a family reeling from the loss of this charismatic, enigmatic wife and mother, who—they come to learn—was very good at keeping secrets. A year later with her daughter having waking dreams that her mother is still alive, husband Jonathan uncovers the secret that sends him on his own quest for the truth.

9780812989465 | \$27.00 HC

"Tantalizing and twisty, *Watch Me Disappear* is both a spider's web of a thriller and a moving exploration of the deeper mysteries of marriage and family. You won't be able to put it down, but you won't forget it either." —Megan Abbott, author of *You Will Know Me*

"The plot is gripping enough: a woman's disappearance leaves a daughter and husband in a limbo that moves rapidly into true mystery, with ever-widening gaps between acceptance and doubt, memory and history, truth and lies—all very slippery and treacherous and thrilling.

But the real magic of *Watch Me Disappear* is Brown's gift for evoking familial love in all its mad permutations—and the more intensely for the high stakes of what has been taken, and what is yet to be found. This is a story you simply don't want to end—but then lord what an ending!" —Tim Johnson, author of *Descent*

Politics and Current Events

FROM CHICAGO

DOWN AND OUT IN THE NEW ECONOMY

How People Find (or Don't Find) Work Today

ILANA GERSHON

"In this beautifully written volume, Gershon explores the subtle violence that ensues when, in order to get a job, you have to apply branding and marketing techniques to your own personality, and reconfigure your very sense of being in the world as a result."—David Graeber, author of *Debt: The First 5,000 Years*

304 p., 4 halftones • ISBN: 9780226452142 • Cloth \$25.00

SUPERSIZING URBAN AMERICA

How Inner Cities Got Fast Food with Government Help

CHIN JOU

"This page-turner of a book tells a virtually unknown story. Federal policies to assist small businesses deliberately introduced fast-food outlets into low-income minority areas to the benefit of franchise owners while promoting widespread obesity in these communities. *Supersizing Urban America* is a must-read."

—Marion Nestle, author of *Soda Politics*

THE DEATH GAP

How Inequality Kills

DAVID A. ANSELL, MD

"Ansell does a magnificent job of uncovering the myriad ways in which structural racism—in housing, employment, education, and health care, for a start—creates unacceptable 'death gaps' or disparities in life expectancy that are preventable and therefore morally unacceptable."—Beryl Satter, author of *Family Properties*

The Story of War

Gregory Carleton

narrated by James Cameron Stewart

Outsiders view Russia as an aggressor, but Russians see themselves as surrounded by enemies, defensively fighting off invader after invader, or called upon by history to be the savior of Europe, or Christianity, or civilization itself, often at immense cost. As Carleton shows, war is the unifying thread of Russia's national epic.

Doctor's Inspirational Journey "From Middle-Town, Haiti, to U.S. Academia"

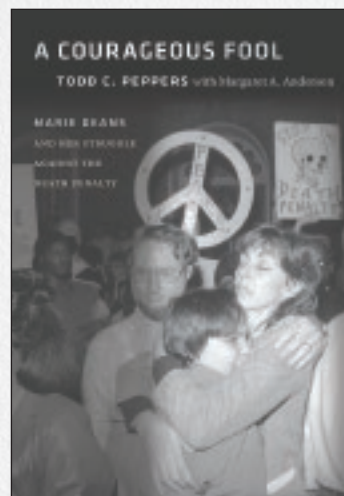

Author shares his life to inspire others that nothing can stop a person from succeeding

From his simple abode in a small Haiti town to the U.S., the land of dreams, he proved that there is nothing stopping one from reaching dreams, achieving goals, and living success. Dr. Gilbert Saint-Jean is a testament to that truth and he wants to motivate, not just the young ones but everyone, so others will get to experience his journey in their own way. In his inspiring memoir, "From Middle-Town, Haiti, to U.S. Academia", readers will walk on Saint-Jean's road to success.

Follow the author's personal tragedies and professional struggles in this inspiring memoir.

The intimate biography of a death penalty opponent who "worked like hell for justice"

"Some say I've done a thing or two for human rights, but next to Marie Deans I'm a pale little wimp. She and I believed in the same kind of scrappy Jesus. Marie used to say, 'Faith? What good is it if you don't put it to work like hell for justice?' . . . Thank God we have this book so others can meet her and love her, too."

ADVANCE INTERVIEW

BENJAMIN PERCY

The Dark Net

AN INTERVIEW WITH THE AUTHOR

Author photo credit:
Arnab Chakladar

Percy, “one of the most gifted and versatile writers to appear in American publishing in years” (James Lee Burke), is the author of three other novels (*The Dead Lands*, *Red Moon*, and *The Wilding*) and two books of short stories. He currently writes the Green Arrow and Teen Titans series at DC Comics and James Bond at Dynamite Entertainment. Percy’s honors include a fellowship from the National Endowment for the Arts, the Whiting Writers’ Award, two Pushcart Prizes, and the Plimpton Prize.

“ Depending on who you ask, The Dark Net is either the wild west or the dungeon of the Internet. ”

Where did the idea for *The Dark Net* first come from?

A lot happened in one fateful week. My sister's email was hacked and my inbox filled up with phishing scams from her. The same thing happened to my social media feed when my friend's Facebook account was hacked. My neighbor filed his taxes and discovered someone had already done so and collected the refund. Our credit card information was stolen and used in Spain. And then my father clicked on the wrong attachment, and his laptop froze and a message popped up that said all of the data on his hard drive was being held hostage and would be deleted if he didn't pay (in bit coins) a ransom fee.

This helped me realize how we're all so nakedly vulnerable online these days. We live as much of our lives in cyberspace as we do the real world, and through our devices, it's so easy to be stalked, pirated, erased, possessed. I liked that idea especially. Possession. The idea that malware and viruses are inhabiting our devices—and by taking them over, they're taking us over.

I often start a project with a higher-level concept and then start to build up characters and storylines around it. So I started to research digital vulnerabilities...and the world of the novel grew out of that.

What is the Dark Net?

Depending on who you ask, The Dark Net is either the wild west or the dungeon of the Internet. You enter it through a special TOR browser that cloaks your identity. In the maze of chatrooms and wiki dumps, you can pirate music and movies, buy mail-order heroin and LSD, hire somebody out to kill someone, hire somebody out to cyber-smear someone. You can find every wretched form of pornography down there. ISIS is down there. The Feds are down there. Journalists in embattled areas are down there, uploading articles and blog posts anonymously, so that they won't be tracked.

I took this idea and cranked up the volume on it. If all of this darkness is gathering in one place, it makes sense for something truly demonic to come out of it.

So you take real world anxieties and then give them a speculative boost. Is this a common technique among sci-fi, horror, and fantasy writers?

Some of my favorite horror/sci-fi/fantasy stories take a knife to the nerve of the moment. Think about how Frankenstein was born out of the Industrial Revolution—the fear of man playing God, the fear of science and technology. Or think of how *Godzilla* channels post-atomic anxieties or how *Invasion of the Body Snatchers* is really about McCarthyism and the Red Scare. Or even how this slew of apocalyptic and post-apocalyptic narratives (in film, television, comics, novels) have come out of 9/11.

That was my approach with *The Dark Net*. Take what really scares us right now—digital vulnerabilities—and write a cyber-thriller tinged with elements of horror.

Tell us about your research process.

I heavily research all of my stories. For *Red Moon*, for instance, I interviewed researchers at the USDA labs and at Iowa State University about animal-borne pathogens, because I wanted to create a contagion analogous to the werewolf myth. I also spent time with government agents, politicians, brew-masters, Marines. There was so much in that book I didn't know when I set out to write it.

I took the same approach with *The Dark Net*. I was writing an article about technology for *GQ*—and they flew me out to Silicon Valley. While there, I was about to cheat research for the novel as well. I spent days on the Google campus, interviewing researchers, and even wore one of their Trekker camera backpacks and rode around in one of their driverless cars. I also spoke with people at Apple and Verizon. I reached out to some “hackers” (though they don't necessarily think of themselves that way) and tech geeks.

I'm technically adept, but this was a whole new level of nerdiness for me, and I wanted to authenticate the novel. Make it something that scared people because it felt real (even with its supernatural elements).

Are there any “canonical cousins” to the novel? Movies or shows or books that fall into a similar genre family? If you like ____, you might enjoy *The Dark Net*?

The cheesy elevator pitch might be that it’s like a cross between *The Matrix* and *The Exorcist*.

I think reviewers will likely compare it to shows like *Black Mirror* (which is kind of a *Twilight Zone* for the digital era) or *Mr. Robot*.

I hope it has a wide appeal. You could call it a cyber-thriller, but you could also call it a horror novel or urban fantasy. People who liked Neal Stephenson’s *Snow Crash* or William Gibson’s *Neuromancer* should like it, but so should people

You also write comics (such as *Green Arrow* and *Teen Titans* for DC) and write screenplays and work for magazines (like *Esquire*, *GQ*, and *Men’s Journal*). How do you code-shift between them, and how have other mediums influenced your work as a novelist?

I try to prioritize the novels. To work on them first thing every day. Once I get out a thousand words, I might take a walk to clear my head, and then I head back to the desk and my focus shifts to whatever other projects I might be grappling with.

Terrance Hayes—the poet—says that the difference between free verse and form poetry (such as the sonnet or villanelle) is the difference between break dancing and break dancing

“ Make it something that scared people because it felt real...”

who like Stephen King or Dean Koontz and Dan Simmons.

Introduce us to a few of the characters.

A few years ago, in a comic book shop, my daughter came up to me with a depressed look on her face. “Where are all the girl heroes?” she said. That’s stayed with me ever since. There are many characters in this novel, but the “hero”—the one who saves the day—is a twelve-year-old girl named Hannah. She’s blind, but is outfitted with some VR tech that channels into her brain and gives her some semblance of sight but unexpectedly also allows her brain to plug in to the Internet.

I also have a driven, bad-ass, emotionally closed off reporter—Lela Falcon—who bears some resemblance to Jessica Chastain in *Zero Dark Thirty*. And a former child evangelist who now runs a homeless shelter in Portland and has in his basement a kind of supernatural arsenal. And a guy who runs a tech store—called GEEK—but moonlights as a one-man cyber army equivalent to Anonymous.

in a straightjacket. It’s cool if you can break dance, but it’s awesome if you can break dance in a straightjacket. That’s how I feel about comics. Those scripts are like break-dancing in a straightjacket. I’ve got 20 pages per issue. No more, no less. Five to seven scenes. Two splash pages. An A plot, B plot, and C plot (the B Plot becomes the A plot of the next issue, the C plot becomes the B plot of the next issue, a constantly rotating turnstile of stories).

This sense of constriction is so different than the seemingly wide open space offered by the novel. But working in this way has made me much more efficient and engaging as a storyteller; I’m always thinking about pushing the story forward, while also characterizing and contributing to them. I’ve always known that you’re supposed to accomplish more than one thing in every scene you write, but writing comics forces you to, due to the limited space. I’m a better novelist because of it. *The Dark Net* is the first book I’ve written since breaking into comics, and I think it’s also my best.

JAMES BRADLEY

Clade

THE STORY OF ONE FAMILY IN A CHANGING WORLD

9781785654145 | \$14.95 PB | Titan Books

© Beowulf Sheehan

Bradley is a novelist and critic whose books include the novels *Wrack*, *The Deep Field*, *The Resurrectionist*, a book of poetry, *Paper Nautilus* and *The Penguin Book of the Ocean*. He lives in Sydney, Australia.

ABOUT THE BOOK

Clade is an elegantly written, beautiful work of speculative fiction exploring the effects of ecological disaster over multiple generations of an Australian family. Upon release in Australia, the author's home country, the book garnered extraordinary praise and went on to be shortlisted for the 2015 Aurealis Award, the 2016 ALS Gold Medal, and the 2016 WA Premier Award.

Published for the first time in America, this is a powerful and affecting literary tale that fans of *Station Eleven* will love!

PRAISE FOR CLADE

"Urgent, powerful stuff."—Adam Roberts, *The Guardian*

"[*Clade*] is among the most literate and humane contributions to that slowly emerging tradition of what is sometimes called 'slow apocalypse' fiction..."—Gary K. Wolfe, *Locus*

"A melodic, intense rendering...sharp, inventive and ultimately hopeful."—*Herald Sun*

"In Australia, there is no one like [Bradley] in the imagining of the imminent end time of the way we live now."—*Sydney Review of Books*

“ ..having children denies
you the luxury of despair... ”

What does “clade” mean?

Clade is a biological term referring to a group of organisms with a common ancestor, and comes from the Greek word, *klados*, or branch, and refers to a single branch on the tree of life. I chose it because it seems to distill the novel's focus on one family over several generations while also speaking to its interest in loss and extinction. I also love the duality of the word itself, the way it sounds so sleek and futuristic while also suggesting the word “glade,” and the sense of sacredness it conjures.

Your book tackles the ecological crisis over many generations. Is it about combating ecology or learning to adapt?

One of the problems people have with climate change is that the problem is somehow just too large to hold in our heads. That means that although many of us have a reasonably good understanding of the science, we struggle to make sense of what's going on at an emotional and personal level. With *Clade* I tried to get past that problem by concentrating on the characters, because by doing that, it seemed possible to communicate something of what it might feel like to experience the effects of climate change first hand.

Early in the book, two characters wrestle with the decision to have a baby—can you tell us about the struggle they face and the implications of the decision?

The questions Adam and Ellie grapple with in the first part of the book are very personal ones for me. I have two young

daughters, and I feel a deep sense of shame and grief about the fact that they will grow up in a world in which the polar icecaps are melting, biodiversity is collapsing, and the Great Barrier Reef is dead. Yet at the same time, having children denies you the luxury of despair, something I think both Adam and Ellie eventually come to realize, albeit in different ways.

Is the current ecological crisis an apocalyptic event in slow motion, or is it simply a new epoch in natural history that humans can overcome?

The critic Fredric Jameson once said it's easier to imagine the end of the world than it is to imagine the end of capitalism. Something similar is true of our response to climate change, and our tendency to either ignore the problem or retreat into fantasies of the apocalypse. In *Clade*, I tried to broaden the perspective, because it seems to me that if we begin to think in timescales outside the human, it becomes easier to see there are many futures open to us.

What can readers expect to experience in *Clade*?

I think—I hope—they will find the grief and loss so many of us feel about the transformation of the planet given tangible form. But I also hope they will find beauty, wonder, and ultimately possibility. Because it's only by recognizing possibility that we make room for hope, and more importantly, change.

I've spent the past few days researching everything I can about Evelyn Hugo. I was never a big film buff, let alone interested in any old Hollywood stars. But Evelyn's life—at least the version on record as of now—is enough for ten soap operas.

There's the early marriage that ended in divorce when she was eighteen. Then the studio-setup courtship and tumultuous marriage to Hollywood royalty Don Adler. The rumors that she left him because he beat her. Her comeback in a French New Wave film. The quickie Vegas elopement with singer Mick Riva. Her glamorous marriage to the dapper Rex North, which ended in both of them having affairs. The beautiful love story of her life with Harry Cameron and the birth of their daughter, Connor. Their heartbreaking divorce and her very quick marriage to her old director Max Girard. Her supposed affair with the much younger Congressman Jack Easton, which ended her relationship with Girard. And finally, her marriage to financier Robert Jamison, rumored to have at least been inspired by Evelyn's desire to spite former costar—and Robert's sister—Celia St. James. All of her husbands have passed away, leaving Evelyn as the only one with insight into those relationships.

Suffice it to say, I have my work cut out for me if I want to get her to talk about any of it.

So, for the next three days, I do nothing but research Evelyn Hugo. I spend my days pulling up old articles about her marriages and her scandals. I spend my evenings watching her old movies.

I watch clips of her in *Carolina Sunset*, *Anna Karenina*, *Jade Diamond*, and *All for Us*. I watch the GIF of her coming out of the water in *Boute-en-Train* so many times that when I fall asleep, it plays over and over in my dreams.

And I start to fall in love with her, just the littlest bit, as I watch her films. Between the hours of eleven p.m. and two a.m., while the rest of the world is sleeping, my laptop flickers with the sight of her, and the sound of her voice fills my living room.

There is no denying that she is a stunningly beautiful woman. People often talk about her straight, thick eyebrows and her blond hair, but I can't take my eyes off her bone structure. Her jawline is strong, her cheekbones are high, and all of it comes to a point at her ever-so-swollen lips. Her eyes are huge but not so much round as an oversized almond shape. Her tanned skin next to her light hair looks beachy but also elegant. I know it's not natural—hair that blond with skin that bronze—and yet I can't shake the feeling that it *should* be, that humans should be born looking like this.

I have no doubt that's part of the reason film historian Charles Redding once said that Evelyn's face felt "inevitable.

So exquisite, so nearly perfect, that when looking at her, you get the sense that her features, in that combination, in that ratio, were bound to happen sooner or later."

I pin images of Evelyn in the '50s wearing tight sweaters and bullet bras, press photos of her and Don Adler on the Sunset Studios lot shortly after they were married, shots of her from the early '60s with long, straight hair and soft, thick bangs and wearing short-shorts.

There is a photo of her in a white one-piece, sitting on the shoreline of a pristine beach, with a large, floppy black hat covering most of her face, her white-blond hair and the right side of her face illuminated by the sun.

One of my personal favorites is a black-and-white shot from the Golden Globes in 1967. She is seated on the aisle, her hair pulled into a loose updo. She is wearing a light-colored lace gown with a deep scoop neckline, her cleavage controlled but on full display and her right leg escaping through the high slit of the skirt.

There are two men seated next to her, names lost to history, who are staring at her as she looks ahead at the stage. The man next to her is staring at her chest. The one next to him is staring at her thigh. Both of them seem enraptured and hoping to see the tiniest bit farther.

Maybe I'm overthinking that photo, but I'm starting to notice a pattern: Evelyn always leaves you hoping you'll get just a little bit more. And she always denies you.

Even in her much-talked-about sex scene in *Three A.M.* from 1977, in which she writhes, reverse-cowboy style, on top of Don Adler, you see her full breasts for less than three seconds. It was rumored for years that the incredible box-office numbers for the film were because couples were going to see it multiple times.

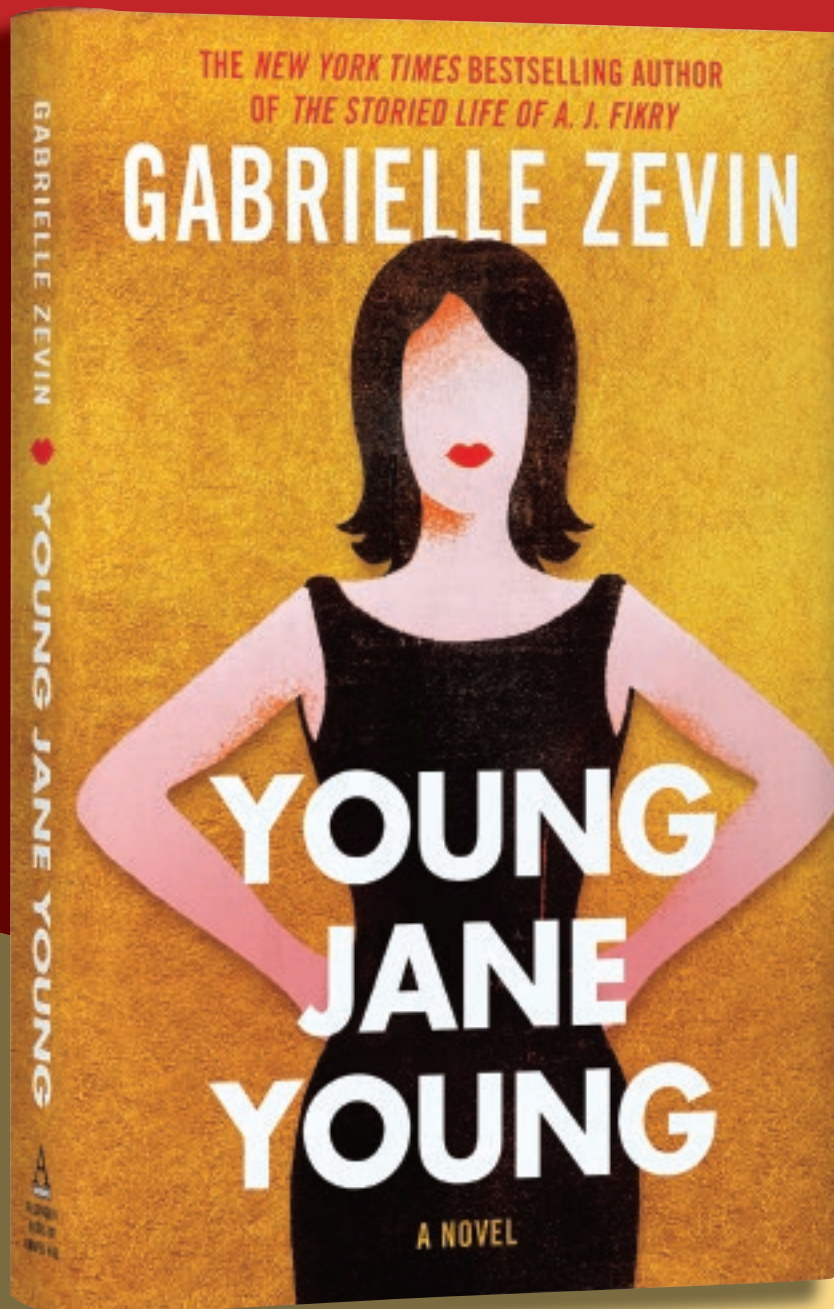

How does she know just how much to give and just how much of herself to withhold?

And does that all change now that she's got something to say? Or is she going to play me the same way she played audiences for years?

Is Evelyn Hugo going to tell me just enough to keep me on the edge of my seat but never enough to truly reveal anything?

Ruthless Lord Soren strives to reunite warring feudal mini-states into a mighty kingdom. His most powerful weapon is the Bezrielite necromancer, William, the mightiest sorcerer in modern times. William has rejected Bezriel's sacred mystical traditions, instead using sorcery for dominion over men and nature.

Opposing Soren and William is the ragtag liberation army, Free Bezriel, and its powerful young sorceress, Ariadne. Despite having been taught to use her powers only for peace and healing, when she sees the corrupting influence of Soren and William on Bezriel, she puts aside her pacifist principles to join the guerrilla struggle.

Needless slaughter by Soren's troops of many of her friends in the rebel army leads Ariadne to a shocking act of revenge. While a remorseful Ariadne ponders whether killing, even for a good cause, can ever be justified, and considers quitting Free Bezriel, Soren and William intensify their efforts to destroy the guerrillas.

About the Author

John Sinisi is a lifelong believer in the power of fantasy as a way to explore the challenges of being human and humane in a difficult world. Born and raised in Altoona, Pennsylvania, he is a graduate of Notre Dame and the University of Massachusetts at Amherst. He now lives in Schuylkill Haven, Pennsylvania, where he is surrounded and nurtured by a wonderful group of friends. In addition to the fantasy "The Sorceress", he has written a mystery novel, "Too Many Motives for Murder".

GERARD WAY

What is DC's Young Animal?

Way is the Eisner Award-winning writer of *The Umbrella Academy* and former vocalist and co-founder of the alternative rock band My Chemical Romance.

DC's *Young Animal* is, first and foremost, about the art of making comics: the teams and the collaboration and the desire for creators to do new and experimental things. It is a place for wild ideas, and these ideas become Comics for Dangerous Humans—those who seek an alternative to what is largely happening in mainstream comics and the media. We do this with honor to the past, while facing the future in a fearless way. I hope you check out these books—they are doing something different, they are forming something new. We are extracting the oddballs from the DC Universe and zapping them with invigorating life.

I grew up reading Grant Morrison's *Doom Patrol* and other books that paved the way for the Vertigo imprint. Stories that starred misfit characters from the DC Universe and people living on the fringes of society.

Telling great stories via words and pictures is the ultimate form of self-expression. I can't think of a better place to tell the stories that represent the alternative zeitgeist than DC's *Young Animal*.
