YOU'RE NOT LISTENING

AUTHOR KATE MURPHY

Knows That Listening is Both an Art and a Skill

NEW YORK TIMES CONTRIBUTOR KATE MURPHY DRAWS ATTENTION TO THE WORLDWIDE EPIDEMIC OF NOT LISTENING, EXPOSING THE PROFOUND IMPACT THAT IT IS HAVING ON US ALL AND SHOWING WHAT WE CAN DO ABOUT IT.

How did you get the idea to write this book?

There were so many things nudging me to write this book, not least the shouting matches that now qualify as political discourse and people's seeming inability to have sustained conversations without glancing at their phones. But what really convinced me was other people's reactions when I listened to them. As a journalist, I listen for a living, and, increasingly, I noticed that

people I interviewed seemed surprised, almost taken aback, that I was actually paying attention to what they said. They began telling me profoundly personal things, wholly unrelated to the stories I was writing, as if they'd been long waiting for the opportunity. And these were very successful, well-connected people—not lacking for company, but apparently lacking for listeners. These exchanges were both striking and touching and served as the jumping off point for the book.

What does it mean to be a good listener?

What I found is that rather than being a checklist of dos and don'ts, listening is more a state of mind. It's about getting yourself in a receptive mode and also developing an awareness of the kinds of things that hijack your attention, cloud your perception, and make you zone out during

a conversation. And, just as importantly, listening has to do with how well you respond—the degree to which you are able to encourage and elicit the clear expression of someone else's thoughts. It's both an art and a skill.

You make the argument that good listeners react to what people are saying, instead of thinking about what to say as someone talks. But, planning what to say can ease anxiety when talking to someone new or intimidating. How do we balance this?

A better response will come to you when you have taken in all that the other person has to say. Then, pause if you need to after the other person concludes to think about what you want to say. And if you're still at a loss, it's okay to say, "I don't know what to say." You can also say, "I'd like to think about that," which conveys that you're honoring what the other person said by taking time to

think about it, while, at the same time, honoring that part of you that is uncertain or anxious and needs time to process. Better that than responding in a way that reveals you weren't really listening.

IN YOU'RE NOT LISTENING, MURPHY INTRODUCES US TO SOME OF THE BEST LISTENERS OUT THERE, INCLUDING A CIA AGENT, FOCUS-GROUP MODERATOR, BARTENDER, RADIO PRODUCER, AND TOP FURNITURE SALESMAN.

RELIGION - CONTEMPORARY ISSUES

The Science of Miracles

Rev. Archie J. Pinkney
An example of bad religion (theology) are those that insist that creation took place in six or seven 24-hour days when Psalms 90:4 clearly states that "a thousand years in [God's] sight are like a day that has gone by." From God's perspective, it could have been any amount of time. This pushed the author to look at explanations of miracles and study their validity. 32 pp.

three nights before he was to meet

witnessed 8 - 12 whisper-silent

What came of the encounter and his

access to hundreds of hours of
testimonials from eyewitnesses in

Cummins is the author of the novels *The Outside Boy* and *The Crooked Branch*, and the bestselling memoir *A Rip in Heaven*. *American Dirt* has been hailed as “extraordinary” (Stephen King), “a riveting read” (Ann Patchett), and “a *Grapes of Wrath* for our times” (Don Winslow).

“...even parents who take care not to discuss the violence in front of them, to change the radio station when there’s news of another shooting, to conceal the worst of their own fears, cannot prevent their children from talking to other children.”

CHAPTER ONE

One of the very first bullets comes in through the open window above the toilet where Luca is standing. He doesn’t immediately understand that it’s a bullet at all, and it’s only luck that it doesn’t strike him between the eyes. Luca hardly registers the mild noise it makes as it flies past and lodges into the tiled wall behind him. But the wash of bullets that follows is loud, booming, and thudding, *clack-clacking* with helicopter speed. There is a raft of screams, too, but that noise is short-lived, soon exterminated by the gunfire. Before Luca can zip his pants, lower the lid, climb up to look out, before he has time to verify the source of that terrible clamor, the bathroom door swings open and Mami is there.

“*Mijo, ven,*” she says, so quietly that Luca doesn’t hear her.

Her hands are not gentle; she propels him toward the shower. He trips on the raised tile step and falls forward onto his hands. Mami lands on top of him and his teeth pierce his lip in the tumble. He tastes blood. One dark droplet makes a tiny circle of red against the bright green shower tile. Mami shoves Luca into the corner. There’s no door on this shower, no curtain. It’s only a corner of his *abuela’s* bathroom, with a third tiled wall built to suggest a stall. This wall is around five and a half feet high and three feet long—just large enough, with some luck, to shield Luca and his mother from sight. Luca’s back is wedged, his small shoulders touching both walls. His knees are drawn up to his chin, and Mami is clinched around him like a tortoise’s shell. The door of the bathroom remains open,

which worries Luca, though he can’t see it beyond the shield of his mother’s body, behind the half barricade of his *abuela’s* shower wall. He’d like to wriggle out and tip that door lightly with his finger. He’d like to swing it shut. He doesn’t know that his mother left it open on purpose. That a closed door only invites closer scrutiny.

The clatter of gunfire outside continues, joined by an odor of charcoal and burning meat. Papi is grilling *carne asada* out there and Luca’s favorite chicken drumsticks. He likes them only a tiny bit blackened, the crispy tang of the skins. His mother pulls her head up long enough to look him in the eye. She puts her hands on both sides of his face and tries to cover his ears. Outside, the gunfire slows. It ceases and then returns in short bursts, mirroring, Luca thinks, the sporadic and wild rhythm of his heart. In between the racket, Luca can still hear the radio, a woman’s voice announcing *¡La Mejor 100.1 FM Acapulco!* followed by Banda MS singing about how happy they are to be in love. Someone shoots the radio, and then there’s laughter. Men’s voices. Two or three, Luca can’t tell. Hard footsteps on Abuela’s patio.

“Is he here?” One of the voices is just outside the window. “Here.”

“What about the kid?”

“*Mira,* there’s a boy here. This him?”

Luca's cousin Adrián. He's wearing cleats and his Hernández jersey. Adrián can juggle a *balón de fútbol* on his knees forty-seven times without dropping it.

"I don't know. Looks the right age. Take a picture."

"Hey, chicken!" another voice says. "Man, this looks good. You want some chicken?"

Luca's head is beneath his *mami's* chin, her body knotted tightly around him.

"Forget the chicken, *pendejo*. Check the house."

Luca's *mami* rocks in her squatting position, pushing Luca even harder into the tiled wall. She squeezes against him, and together they hear the squeak and bang of the back door. Footsteps in the kitchen. The intermittent rattle of bullets in the house. Mami turns her head and notices, vivid against the tile floor, the lone spot of Luca's blood, illuminated by the slant of light from the window. Luca feels her breath snag in her chest. The house is quiet now. The hallway that ends at the door of this bathroom is carpeted. Mami tugs her shirtsleeve over her hand, and Luca watches in horror as she leans away from him, toward that telltale splatter of blood. She runs her sleeve over it, leaving behind only a faint smear, and then pitches back to him just as the man in the hallway uses the butt of his AK47 to nudge the door the rest of the way open.

There must be three of them because Luca can still hear two voices in the yard. On the other side of the shower wall, the third man unzips his pants and empties his bladder into Abuela's toilet. Luca does not breathe. Mami does not breathe. Their eyes are closed, their bodies motionless, even their adrenaline is suspended within the calcified will of their stillness. The man hiccups, flushes, washes his hands. He dries them on Abuela's good yellow towel, the one she puts out only for parties.

They don't move after the man leaves. Even after they hear the squeak and bang, once more, of the kitchen door. They stay there, fixed in their tight knot of arms and legs and knees and chins and clenched eyelids and locked fingers, even after they hear the man join his compatriots outside, after they hear him announce that the house is clear and he's going to eat some chicken now, because there's no excuse for letting good barbecue go to waste, not when there are children starving in Africa. The man is still close enough outside the window that Luca can hear the moist, rubbery

“ Mami collapses against the wall across from him and works her jaw in a way that reveals the dimple in her left cheek. It's weird to see her good church shoes in the shower. ”

smacking sounds his mouth makes with the chicken. Luca concentrates on breathing, in and out, without sound. He tells himself that this is just a bad dream, a terrible dream, but one he's had many times before. He always awakens, heart pounding, and finds himself flooded with relief. *It was just a dream.* Because these are the modern bogeymen of urban Mexico. Because even parents who take care not to discuss the violence in front of them, to change the radio station when there's news of another shooting, to conceal the worst of their own fears, cannot prevent their children from talking to other children. On the swings, at the *fútbol* field, in the boys' bathroom at school, the gruesome stories gather and swell. These kids, rich, poor, middleclass, have all seen bodies in the streets. Casual murder. And they know from talking to one another that there's a hierarchy of danger, that some families are at greater risk than others. So although Luca never saw the least scrap of evidence of that risk from his parents, even though they demonstrated their courage impeccably before their son, he knew—he knew this day would come. But that truth does nothing to soften its arrival. It's a long, long while before Luca's mother removes the clamp of her hand from the back of his neck, before she leans back far enough for him to notice that the angle of light falling through the bathroom window has changed.

There's a blessing in the moments after terror and before confirmation. When at last he moves his body, Luca experiences a brief, lurching exhilaration at the very fact of his being alive. For a moment he enjoys the ragged passage of breath through his chest. He places his palms flat to feel the cool press of tiles beneath his skin. Mami collapses against the wall across from him and works her jaw in a way that reveals the dimple in her left cheek. It's weird to see her good church shoes in the shower. Luca touches the cut on his lip. The blood has dried there, but he scratches it with his teeth, and it opens again. He understands that, were this a dream, he would not taste blood.

At length, Mami stands. "Stay here," she instructs him in a whisper. "Don't move until I come back for you. Don't make a sound, you understand?"

Luca lunges for her hand. "Mami, don't go."

"Mijo, I will be right back, okay? You stay here." Mami pries Luca's fingers from her hand. "Don't move," she says again. "Good boy."

Luca finds it easy to obey his mother's directive, not so much because he's an obedient child, but because he

doesn't want to see. His whole family out there, in Abuela's backyard. Today is Saturday, April 7, his cousin Yénifer's *quinceañera*, her fifteenth birthday party. She's wearing a long white dress. Her father and mother are there, Tío Alex and Tía Yemi, and Yénifer's younger brother, Adrián, who, because he already turned nine, likes to say he's a year older than Luca, even though they're really only four months apart.

Before Luca had to pee, he and Adrián had been kicking the *balón* around with their other *primos*. The mothers had been sitting around the table at the patio, their iced *palomas* sweating on their napkins. The last time they were all together at Abuela's house, Yénifer had accidentally walked in on Luca in the bathroom, and Luca was so mortified that today he made Mami come with him and stand guard outside the door. Abuela didn't like it; she told Mami she was coddling him, that a boy his age should be able to go to the bathroom by himself, but Luca is an only child, so he gets away with things other kids don't.

In any case, Luca is alone in the bathroom now, and he tries not to think it, but the thought swarms up unbidden: those irritable words Mami and Abuela exchanged were perhaps the very last ones between them, ever. Luca had approached the table wriggling, whispered into Mami's ear, and Abuela, seeing this, had shaken her head, wagged an admonishing finger at them both, passed her remarks. She had a way of smiling when she criticized. But Mami was always on Luca's side. She rolled her eyes and pushed her chair back from the table anyway, ignoring her mother's disapproval. When was that—ten minutes ago? Two hours? Luca feels unmoored from the boundaries of time that have always existed.

Outside the window he hears Mami's tentative footsteps, the soft scuff of her shoe through the remnants of something broken. A solitary gasp, too windy to be called a sob. Then a quickening of sound as she crosses the patio with purpose, depresses the keys on her phone. When she speaks, her voice has a stretched quality that Luca has never heard before, high and tight in the back of her throat.

"Send help."

ADVANCE INTERVIEW

ROHIT BHARGAVA

Non-Obvious Megatrends

WINNER OF 7 INTERNATIONAL BOOK AWARDS

9781940858968 | \$24.95 HC | Ideapress Publishing

Photo Credit: Joe Kennedy

Bhargava is an innovation and marketing expert and the founder of the Non-Obvious Company. He spent 15 years as a marketing strategist for Ogilvy and Leo Burnett, and he is also the *Wall Street Journal*-bestselling author of six business books. Additionally, Bhargava teaches marketing and innovation at Georgetown University.

It's almost 2020, and we're already hearing a lot of trend predictions. What makes your predictions and *Non-Obvious Megatrends* different?

Once I read a year-end article that predicted "social networking will continue to grow" in the coming year. Too many trend predictions are like that: lazy, biased, or just plain obvious. My frustration with these so-called trends led me to publish the first edition of my annual "non-obvious" trend report in 2011. This decade-long project includes more than 100 past predictions. This year for the first time, I'm taking an expanded look back at thousands of stories and interviews to build a picture of 10 Megatrends that I believe will shape our world in the decade to come.

trends I curate are never solely about a single technology or industry. They aim to bring multiple ideas together and draw a conclusion from the ways they intersect.

OK, you need to share the back story. What's with the Post-It notes?

I dress that way every weekend! No, actually it's from a fun photo shoot that an editorial team did to accompany an article about my process. The idea was to show how I sort through all the "information noise" in order to find meaning and identify interesting ideas. If you think that was fun, you should see the time-lapse video that we posted on social media.

“ My ultimate hope is that this book will offer readers an urgent reason and method to think for themselves. The world needs more non-obvious thinkers. ”

The insights in *Non-Obvious Megatrends* are grounded in more than 10 years of research. Can you share more about the research process behind this book?

The new book describes my process as the Haystack Method. It involves a lot of paper collecting and uses card-sorting and mind-mapping techniques to visually aggregate ideas into categories. The process broadens to find the intersections and common themes among the ideas and categories that might lead to bigger ideas.

Unlike many futurists who tend to be technologists or academics, you have a unique background as a brand marketer and storyteller. How does this impact the Megatrends you share?

The best marketing uncovers a human truth and then uses it to tell a powerful and persuasive story. All the trends I write about are grounded in human behaviors, and I use stories to bring them to life and to make them actionable. The

In the book you share some wildly diverse stories, from Hong Kong's last birdcage maker to entrepreneurial indigo farmers from northern Tennessee. How do you find these unique examples?

I am an avid collector of stories. I tear articles out of unusual magazines and read hundreds of stories every week in order to write my weekly newsletter. I speak at 50+ global events a year and interview dozens of fascinating people. I receive hundreds of books to review every year. This all goes into the curation of my trends.

It sounds like you read a lot, but in the book you write that "speed reading doesn't matter." Don't we need to hurry up to deal with the information overload?

One of my favorite quotes is from author Isaac Asimov, who once said, "I'm not a speed reader. I'm a speed understander." This is what I try to do. It's impossible to keep up with everything and trying desperately to read faster isn't the

“ The key to non-obvious thinking isn't reading more; it's reading with more intention. ”

answer. That's the equivalent of trying to learn from a textbook by highlighting every sentence. Instead, we need to be more selective and to challenge ourselves to consume media we don't agree with or read about things we don't understand. The key to non-obvious thinking isn't reading more; it's reading with more intention.

You have taught trend curation to thousands of professionals around the world, but it seems like a lot of work. Why is this an important skill, and do you really think anyone can do it?

Too often I see people write notes on a scrap of paper, and within 24 hours they lose the paper or forget why they wrote something in the first place. If you do that, you're losing your best ideas, and that's a shame. In workshops, I encourage participants to collect ideas the way people collect frequent-flier miles—as momentary rewards for later redemption. The idea is that you can get better at collecting an idea and letting its significance appear over time.

Have you ever been wrong on a trend or a prediction?

The truth? Of course. While making 100+ predictions, there have been some misses. Unlike many other trend forecasts, though, I build a lot of transparency into my predictions. There's an appendix in the book that features a recap of every past trend along with an updated analysis on how that trend fared over time. A letter grade is assigned to every trend based on its longevity.

You write about using trends for “fun and profit.” What do you mean, and can you tell us more specifically about the profit part of that?

First, I believe that understanding what direction the world is moving can make you more interesting as a person, and that is the fun part. On the profit side, when you can see the shifts happening in culture and behavior, you can pivot your business or career to take advantage. For example, several years ago I curated a trend I called the *Human Mode* to describe why offering a more personal experience still matters. Since then I've helped dozens of brands bring more humanity to their products and experiences, and it has paid off for all of them.

What implications will your Megatrends have for booksellers and the publishing industry?

There are several, but my favorites are two past trends: *Precious Print* and *Revivalism*. The first describes how we value the things that we hold in our hands, especially printed items. The second details how people are returning to time-honored experiences they trust from their past. Both are perfect arguments for why people continue to love bookstores and buy printed books.

What's the hardest part about curating new trends every year?

Most people assume it is constantly seeking new trends, but that has never been the problem. Instead, I often struggle to leave a trend idea behind after a year has passed. That means I'm routinely compelled to abandon past trend ideas, often before their impact really becomes clear. The thing with a well-predicted trend is that it doesn't go obsolete after a year. Instead, if it's accurate and accelerating as expected, it eventually will become *obvious* instead of *non-obvious*.

You have published a new trend report every year for the past nine years, but you say *Non-Obvious Megatrends* will be the last edition of the book. Why are you stopping?

This is a question I get a lot. Much as Jerry Seinfeld said when asked the same question about ending his show, I want to end this project gracefully while it is at its peak. Writing this annual book has been the longest project of my career. I'm proud to share that many past predictions, from the evolution of gender to the rise of purposeful profit, have truly changed our culture.

What is your ultimate objective or hope for *Non-Obvious Megatrends*?

It concerns me that many forces in the world are conspiring to make people more narrow-minded, biased, and closed off to alternative viewpoints. My ultimate hope is that this book will offer readers an urgent reason and method to think for themselves. The world needs more non-obvious thinkers. This book is for them.

Women in Power

NEW FROM SKYHORSE PUBLISHING

Learn from the world's most inspiring women in this new series from Skyhorse Publishing, Women in Power.

Given her incredible tenure as a Supreme Court justice as well as her monumental impact on the modern women's rights movement, Ruth Bader Ginsburg has become one of the most prominent political leaders of today. To complement her judicial significance, she has also become one of the most culturally popular political figures in U.S. history. Not only has her workout routine gone viral (and been detailed in a book by her trainer), but RBG's story has been featured in multiple critically acclaimed films. *The RBG Way* offers wisdom from Justice Ginsburg, based on comments she has made on particular topics of importance. Insight is offered on subjects such as women's rights, creating lasting partnerships, overcoming hardship, how to be brave, and how to create lasting change.

In 2007, Nancy Pelosi became the highest-ranking elected female government official in U.S. history when she started her tenure as Speaker of the House. In January 2019, she began her third term as Speaker during a tumultuous time in American political history. Having represented San Francisco for 32 years, Pelosi has become well-known for her work to expand health care, support workers, protect the environment, promote human rights, and make progress for the American people regardless of the president or the party controlling Congress. In *The Nancy Pelosi Way*, author and daughter of the Speaker Christine Pelosi takes a close look at how her mother went from homemaker to House Speaker to the most powerful female politician in America, and at the many important lessons from her actions and dialogue along the way.

In an incredibly short time, Alexandria Ocasio-Cortez has galvanized the country on issues of national importance. This young member of Congress who has motivated Democrats to confront issues from climate change to income inequality is upending conventional wisdom about how young women are supposed to behave. Her background, including a family that fell on hard times due to health care challenges, has driven her to champion those on the margins, such as low-wage workers, immigrants, people of color, and younger people who face a future of climate disruption and instability. *The AOC Way* takes life lessons from the rising star known as "AOC" and offers readers a chance to apply them to their own lives.

AFTER SUICIDE: There's Hope for Them and for You

Addressing the hard issue of suicide simply and pastorally, Fr. Chris Alar, MIC, and Jason Lewis, MIC, draw from the teaching of the Church, the message of Divine Mercy, and their own experience of losing a loved one to offer readers two key forms of hope: hope for the salvation of those who've died by their own hand, and hope for the healing of those left behind. This book is a must-read for all those trying to make sense out of such a difficult subject. Remarkably, the spiritual principles of healing and redemption apply not only to a loss from suicide, but by any means of death.
