## AUNTIE POLDI AND THE SICILIAN LIONS

"Giordano's wit and his formidable heroine's wisdom combine to make this debut a smash."

—Kirkus Reviews (starred review)

A gripping and timely novel that follows Sigrid—the dry-witted detective from *Norwegian by Night*—from Oslo to the United States on a quest to find her missing brother

“What astonishes and impresses me about Miller’s books—and *American by Day* is no exception—is how witty and entertaining they are in moments, and yet deeply resonant and meaningful as well. Whether tackling issues of war or race, Derek Miller goes to the heart of matters affecting how we as a civilization live.”

— SHERYL COTLEUR, Copperfield’s Books

A groundbreaking new guide to pairing ingredients

*The Flavor Matrix* shows how science can unlock unheard-of possibilities for combining foods into astonishingly inventive dishes. Chef and author James Briscione distills chemical analyses of different ingredients into easy-to-use infographics, and presents mind-blowing recipes that he's created with them. The result of intensive research and incredible creativity in the kitchen, *The Flavor Matrix* is a must-have for home cooks and professional chefs alike: the only flavor-pairing manual anyone will ever need.

“Flavor pairing is a fundamental building block of what separates the cook from the chef. *The Flavor Matrix* will help you think like a chef.”

—**MADLINE PUCKETTE**,  
coauthor of *Wine Folly*

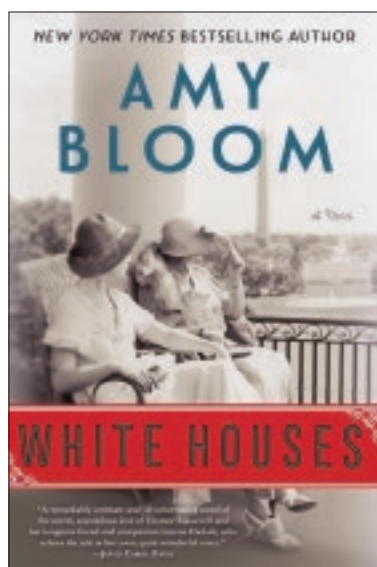

Chef **JAMES BRISCIONE** is the director of culinary research at the Institute of Culinary Education, lead chef on IBM's Chef Watson project, and two-time *Chopped* champion.

Whenever I'm composing a menu, I try to think of things that grow near each other—pork and sweet potatoes, for example, or olives and lemons and lamb. This book pairs ingredients via a whole new approach—through chemistry. Working with IBM's computer Watson, Briscione has created wheel-like charts of 58 ingredients and has come up with fascinating and liberating flavor combinations. These are like color wheels for food!

Finally, Gaiman's *American Gods* has been adapted into graphic novel form. With the success of the TV series and the track record of the novel, this is a definite must-have. This is the first of a three-volume series.

### *Clue*

Paul Allor  
Nelson Daniel, illustrator  
9781684051182, \$19.99  
IDW Publishing

This is the graphic novel adaptation of the board game. All the familiar faces are in it, with a couple of new twists just to liven it up a bit. I think this is going to be a fun one.

### *Closer Than You Know*

Brad Parks  
9781101985625, \$26.00  
Dutton Books

The second book from Parks to be published by Dutton, this thriller is even better than his last book, *Say Nothing*. Both are standalone mysteries that hooked me from the very beginning. If you like suspense novels with lots of twists and turns, this is a terrific choice. The characters and plot are irresistible.

## World War Two Revisited A Story of the Private War

Andre Pronovost

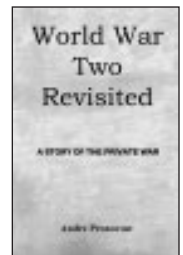

LSIG

During World War II, Europe's aristocrats fought to prevent American capitalists from using America's military might to gain control of Europe's economy and destroy Europe's aristocratic culture. This story shows what the war looked like stripped of secrecy laws, cover-ups, and the insane rush to defeat Hitler and his Nazis before he got an atomic bomb. 548 pp.

## BIOGRAPHY / AUTOBIOGRAPHY

### Behind Enemy Lines

**The True Story of a French Jewish Spy in Nazi Germany**  
*Marthe Cohn* TTAD  
*and Wendy Holden*  
*narrated by Kirsten Potter*  
 When, at the age of 80, Cohn was awarded France's highest military honor, the Medaille Militaire, not even her children knew what she had done to help defeat the Nazis. This remarkable memoir is the tale of an ordinary human being who, under extraordinary circumstances, became the hero her country needed.

## FORTHCOMING TITLES FROM LIBERTY FUND

### *Studies on the Abuse and Decline of Reason*

By F. A. Hayek

Edited by Bruce Caldwell

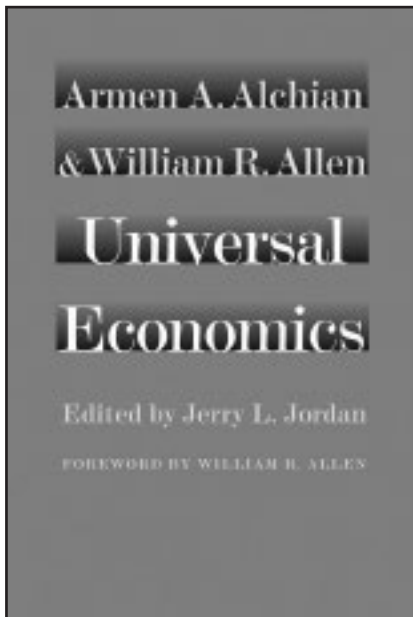

In 1939, Hayek conceived of a grand project to “incorporate intellectual history, methodology, and an analysis of social problems, all aimed at shedding light on the consequences of socialism.” He published the foundational works separately, and this volume collects them all. Editor Bruce Caldwell has provided translations where they were absent and has revised and corrected the text, and his introduction tells “the story of Hayek’s greatest unfinished piece of work.”

**Forthcoming.**

6 x 9. 344 pages.

Editorial foreword, introduction, prelude, “Some Notes on Propaganda in Germany,” selected correspondence, preface to the U.S. edition (1952), preface to the German edition (1959), index.

### *Universal Economics*

By Armen A. Alchian and William R. Allen

Edited by Jerry L. Jordan

*Universal Economics* is a new work that bears a strong resemblance to its two predecessors, *University Economics* (1964, 1967, 1972) and *Exchange and Production* (1969, 1977, 1983).

Collaborating again, Professors Alchian and Allen have written a fresh presentation of the analytical tools employed in the economic way of thinking.

More than any other principles textbook, *Universal Economics* develops the critical importance of property rights to the existence and success of market economies.

**Forthcoming.**

182 pages \$9.24 • Paperback • 978-1-64069-163-6 / \$11.99 • Hardcover • 978-1-64069-167-4

Inspired and influenced by the women he had been in contact with, poet-author Tim Cross puts together a collection of sensual verses and stimulating poems that evokes various thoughts and rousing emotions from readers, deep sentiments which they may have of the lovers and relationships they have.

### About the Author

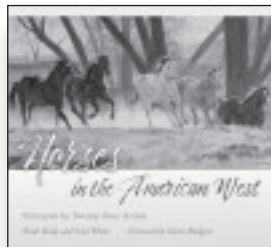

Tim Cross was born at his parents' home in the village of Spratton, near Northampton. His father was a leather tanner and his mother was the daughter of a brewer. He went to the local village school before he was sent to a boarding school called Beachborough in the village of Westbury, near Brackley. From this school, he was sent to Oundle which is a private school near Peterborough. After Oundle, he went on a round-the-world trip with a friend, before spending a year at The Royal Agricultural College in Cirencester.

MARIO GIORDANO

# Auntie Poldi and the Sicilian Lions

MEET SICILY'S NEWEST AMATEUR SLEUTH

9781328863577 | \$24.00 HC | Houghton Mifflin

Photo by: Rica Rosa

Giordano, the son of Italian immigrants, was born in Munich. He is the author of *1,000 Feelings for Which There Are No Names*; he has also written thrillers, books for children, and screenplays. *Auntie Poldi and the Sicilian Lions* is his first novel translated into English.

“ Poldi’s private agreement with her melancholia stipulated a sea view, and a sea view was what she got, together with a breath-taking panorama from her roof terrace. ”

## EXCERPT

1

*Describes how and why Poldi moves to Sicily and what her sisters-in-law think of it. Unable to function without her wig and a bottle of brandy, Poldi invites everyone to a roast pork lunch, makes her nephew an offer he can't refuse, and gets to know her neighbors in the Via Baronessa. One of them goes missing shortly afterwards.*

On her sixtieth birthday my Auntie Poldi moved to Sicily, intending to drink herself comfortably to death with a sea view. That, at least, was what we were all afraid of, but something always got in the way. Sicily is complicated – you can't simply die there; something always gets in the way. Then events speeded up, and someone was murdered, and nobody admitted to having seen or known a thing. It goes without saying that my Auntie Poldi, being the pig-headed Bavarian she was, had to take matters in hand herself and sort them out. And that was when problems arose.

My Auntie Poldi: a glamorous figure, always ready to make a dramatic entrance. She had put on a bit of weight in recent years, admittedly, and booze and depression had ploughed a few furrows in her outward appearance, but she was still an attractive woman and mentally tip-top—most of the time, at least. Stylish, anyway. When Madonna's Music came out, Poldi was the first woman in Westermühlstrasse to wear a white Stetson. One of my earliest childhood memories is of her and Uncle Peppe sitting on my parents' patio in Neufahrn, Poldi in a bright orange trouser suit, beer in one hand, cigarette in the other, and everyone joining in the laughter she seemed to generate with her entire body, which erupted from her in inexhaustible gusts of mirth – interspersed with the smutty jokes and expletives that made me the star attraction of the school playground when I passed them on the next day.

Isolde and Giuseppe had met at a Munich television studio, where Poldi worked as a costume designer and Peppe was a tailor, an occupation which, for want of any other talent or aspiration, he had inherited from his tyrannical and hypochondriacal father, in other words my grandfather, who had likewise lacked any talents or aspirations – quite unlike his father, my great-grandfather Barnaba, that is, who, without being able to speak a word of German, had emigrated in the 1920s to Munich, where he set up a lucrative wholesale fruit business and became a wealthy man. But I digress.

Poldi and my Uncle Peppe had shared a grand passion, but alas, a few things went badly wrong. Two miscarriages, booze, my uncle's womanizing, divorce from my uncle, my uncle's illness, my uncle's death, the whole issue of the plot of land in Tanzania and sundry other unpleasant twists and turns, setbacks and upheavals of life had stricken my aunt with depression. But she continued to laugh, love and drink a lot, and she didn't simply take things lying down when they went against the grain. Which they always did.

Poldi had enjoyed being a costume designer, but in recent years she had more and more often lost jobs to younger colleagues. Television work had become scarcer, times harder, and Poldi had gradually fallen out of love with her profession. Stupidly enough, the disastrous venture in Tanzania had robbed her of almost all her savings. But then her parents died in quick succession and left her their little house on the outskirts of Augsburg. And because my Auntie Poldi had always hated the house and everything to do with it, nothing could have been more logical than to sell it and take herself off, together with the rest of her savings and her small pension, and fulfill one of her dearest wishes: to die with a sea view. And family for company.

The family in Sicily naturally suspected that Poldi meant to hasten her demise with a glass or two, given her depressive

tendencies, and felt that this must be combated on every level and by all available means. When I say “family” I’m referring principally to my three aunts, Teresa, Caterina and Luisa, and my Uncle Martino, Teresa’s husband. Aunt Teresa, who calls the shots in our family, tried to persuade Poldi to move in with them at Catania, if only for social reasons.

“Don’t be daft, Poldi,” Teresa lamented in her best Munich dialect, “why would you want to live out there, all on your lonesome? Move in near us, then you’d always have someone to chew the fat and play cards with and you can do everything on foot. Theatre, cinemas, supermarket and hospital – everything’s practically on the doorstep. We’ve even got a few good-looking policemen, too.”

Not a chance, though. Poldi’s private agreement with her melancholia stipulated a sea view, and a sea view was what she got, together with a breath-taking panorama from her roof terrace. The sea straight ahead and Etna behind – what more would anyone want? The only snag: with her bad knee, Poldi could hardly make it up the stairs to the roof.

A sleepy, friendly little town on the east coast of Sicily midway between Catania and Taormina, Torre Archirafi is unsuited to any form of tourist exploitation, gentrification or vandalism because of its coastline, which consists of massive, jagged volcanic cliffs. Or so one would think, anyway. This doesn’t, in fact, deter the inhabitants from dumping their rubbish on the beach, making life as difficult for each other as possible, and, in the summer, shoe-horning timber platforms and snack bars into the gaps between the cliffs. On weekends families and young people from Catania throng there to sunbathe, eat, read paperbacks, squabble, eat, listen to the radio, eat and flirt, forever bombarded by the thump of indeterminate bass rhythms and dazed by a miasma of coconut oil, frying fat and fatalism. And, in the midst of it all, my Auntie Poldi. She liked the place, I’ve never known why.

Winters in Torre, on the other hand, are dank. A sea the colour of lead snarls at the projecting breakwaters as if intent on swallowing the whole town, and its moist, salty breath adorns every ceiling with black efflorescences of mildew. Air conditioning and feeble central heating systems don’t stand a chance. My Auntie Poldi had to have the whole house whitewashed the very first April after she moved into the Via Baronessa, and again every year thereafter. Winters in Torre aren’t much fun, but at least they’re short.

For shopping one drives to nearby Riposto, or, better still, straight to the HiperSimply supermarket, where everything’s on tap. All Torre itself has to offer is Signor Bussacca’s little *tabacchi* for basic necessities, the Bar-Gelateria Cocuzza presided over by the sad signora, and a restaurant even the local cats steer clear of. Torre Archirafi does, however, boast a mineral-water spring, and although the bottling plant down by the harbour was closed in the seventies, *Acqua di Torre* still means something to my aunts. Protruding from the side of the old building is a row of brass taps from which the inhabitants of Torre can still draw their own mineral water free of charge.

“What does it taste like?” I asked politely, the first time Poldi enthused about the public mineral water supply as though speaking of a chocolate fountain.

“Frightful, of course; what do you expect? Still, local patriotism makes folk thirsty.”

## Q&A WITH THE AUTHOR

Tell us about Auntie Poldi, the protagonist of *Auntie Poldi and the Sicilian Lions*. Did something in particular inspire you to write about her?

I used to have a motto for my writing: never private, always personal. I thought my private life was far too boring to be a cool basis for a novel. But the feelings of my characters had to be as authentic and believable as possible.

Even though I felt my private life was a bit boring, I had always wanted to write a saga about my family, following three generations over the course of 100 years through Sicily and Germany, and taking on emigration, politics, adventure, love, hate, crime, truth, passion, sex, fun: my ticket to worldwide fame. But for many years I didn't take the idea further, because I didn't have a decent story, an interesting protagonist, or any narrative perspective.

But when I realized that I could use the mystery genre as a vehicle, make it funny, and explain Sicilian life from my distant point of view, the door opened. And I really did have a Bavarian aunt named Poldi who moved to Sicily when she was 60. She was a very glamorous and funny personality and indeed drank herself into the grave with sea view in Torre Archirafi. So I decided to loosely base my protagonist on her. I asked my other Sicilian aunts if I could fictionalize their lives.

So it all became a bit private, in the end. I broke that original rule with Auntie Poldi. Many incidents in the novel actually happened more or less as depicted. All the locations are real places. And the nerdy nephew who never finishes his novel, but instead tells us about Poldi's life has . . . well . . . a certain role-model in real life.

You were born in Germany, but are of Italian heritage. Can you tell us a little bit about your family background? Do you have roots in Sicily? Do you spend much time there?

My great-grandfather moved to Germany in 1919 to open a wholesale store in Munich. My grandparents followed in the 1930s. So my father was four years old when he came to Germany, and since he spoke German perfectly, we never spoke Italian at home. But we spent almost all of our school holidays in Sicily, and I gradually learned the language. I still go there a few times a year, and I still have lots of family there: my aunts (who were born in Munich and returned to Sicily in the 1960s), lots of cousins, and dear friends.

*Auntie Poldi and the Sicilian Lions* is the first novel of yours translated into English, but you've been at work as a writer in Germany for a long time. Screenplays, YA novels, nonfiction (including *1,000 Feelings for Which There Are No Names*, which was published in English), and thrillers (including a novel that was made into the movie *The Experiment*, starring Adrian Brody and Forest Whitaker): you've written it all! How did your writing career begin? Did you always think your work would cross so many genres?

I've always loved to tell stories and began telling them in my youth, during recess on the school playground. And so I always wanted to become a writer, as it sounded like a cool profession with lots of advantages: easy money, fame, not much to do, I could stay at home, no suits, no bosses. In the end it turned out a little different than expected. During university I wrote my first book, a children's novel. Surprisingly it got published a year later and then it all started. I quit university and tried to write for a living. Some tough years followed, but it slowly got better. I'm never satisfied with my work but the process itself really makes me happy.

As for why my work crosses so many genres, that's hard to answer. I think I simply get bored easily. And in the end, when you've written a screenplay, you've essentially written a book, too. For me, it's all about narration, and I like to explore many narrative possibilities.

What is your writing process like?

I usually get up at 6 a.m., sometimes go to the gym, have coffee, and try to work from 9 a.m. to 9 p.m.. Which means: writing, thinking, plotting, meeting people, doing research, procrastinating a lot, reading, procrastinating again, and maybe getting some stuff done in the end. When working on a novel I try to write at least a thousand words daily. I take a lot of unsorted notes at the beginning of the writing process, and keep a notebook for each project. I believe that handwritten notes are essential.

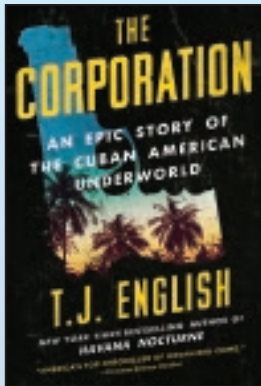

What fiction do you love to read?

My writing spans a wide range and I love to read a broad range: from literary fiction to . . . erm . . . Zombie novels (I recently discovered this genre; these books are often brilliantly written!). And I regularly read and re-read the short stories and novels of Ray Bradbury. Bradbury in fact inspired me to become a writer. His fiction has enlightened my life since I was 14. I regard him as one of the greatest writers of the 20th century. When I visited Los Angeles for the first time, the first thing I did was to pay his grave a visit at the Westwood Village Cemetery. DR. LUCY JONES

# The Big Ones

A CALL TO ACTION FOR FUTURE NATURAL DISASTERS

9780385542708 | \$26.95 HC | Doubleday Books

Photo by: Helen Berger

Dr. Jones was a seismologist for the U.S. Geological Survey for 30 years, most recently as Science Advisor for Risk Reduction. She created the Great ShakeOut Drill, an earthquake preparation experiment that, by 2016, included 53 million participants around the world. A research associate at Caltech, she holds a Ph.D. in geophysics from MIT and a B.A. in Chinese language and literature from Brown University.

“ Regardless which type of vulnerability, most cities have the potential for a Big One in their future... And that Big One will be qualitatively different from the smaller-scale disasters in our recent past. ”

## EXCERPT From the Introduction

Natural disasters have plagued humanity throughout our existence. We plant farms near rivers and near the springs that form along faults for their access to water; on the slopes created by volcanoes for their fertile soil; on the coast for fishing and trade. These locations put us at risk of disruptive natural forces. And indeed we are familiar with the occasional flood, tropical storm, passing tremor. We learn how to construct levees, perhaps a seawall. We add some bracing to our buildings. We are not quite so scared after the tenth minor quake. We begin to feel confident that we can control our natural world.

Natural hazards are an inevitable result of the earth's physical processes. They become natural disasters only when they occur within or near human construction that fails to withstand the sudden change they wreak. In 2011, a magnitude 6.2 earthquake occurred in Christchurch, New Zealand, killing 185 and causing roughly \$20 billion in losses. Yet an earthquake of that size happens every couple of days somewhere in the world. This relatively minor earthquake became a disaster because it occurred right under the city, and the buildings and infrastructure were not built strong enough to withstand it. Natural hazards are inevitable; the disaster is not.

I spent my professional life studying disasters. For much of my career, I was a researcher in statistical seismology, trying to find patterns and make sense of when and how earthquakes occur. Scientifically, my colleagues and I could prove that compared to human timescales, earthquakes occurred randomly. But we found that "random" was an idea we could not convince the public to accept. So, recognizing that the desire for prediction was really a desire for control, I shifted my science toward predicting the *impact* of natural disasters. My goal was to empower people to make better choices—to prevent the damage from happening in the first place.

The U.S. Geological Survey, the government agency charged with providing the science about geological hazards, was my life-long professional home. In a pilot project in Southern California, and later for the nation, we studied floods, landslides, coastal erosion, earthquakes, tsunamis, wildfires, and volcanoes, with the objective of connecting communities to the scientific information that could make them safer, whether it was predicting landslides during rainstorms, recommending wildfire control in ecosystem

management, or better judging our priorities when it comes to mitigating the risk of a big earthquake.

Regardless which type of vulnerability, most cities have the potential for a Big One in their future. Those harbors, fertile fields, and rivers that make everyday life viable are there because of natural processes that can produce disasters. And that Big One will be qualitatively different from the smaller-scale disasters in our recent past. It is a disaster when your house is destroyed. It becomes a catastrophe when not just your home, but your neighbors' homes and so much of your community's infrastructure are destroyed that societal functioning itself collapses. We have choices to make, right now, that could make our cities much more likely to survive and recover from these great natural disasters when they strike. We can make informed choices only if we consider our potential future, and if we take a hard look at our knowable past.

With this book I tell the stories of some of the earth's greatest catastrophes, and what they reveal about ourselves. Each was the Big One of its region, shifting the nature of that community. Together they show how our fear causes us to respond to random catastrophe—the reasoning we employ, the faith we manifest. We will see the limitations of human memory, which keeps us from believing that the one-in-a-million, or even the one-in-a thousand, will ever affect us. And we will face the knowledge that our risk is growing. Because of the increasing density and complexity of our cities, more people than ever before are at a greater risk of losing the systems that maintain life.

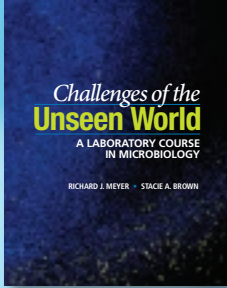

We will come to a place where all our defenses are stripped bare, forced to consider the kind of suffering without meaning that could crush a human spirit. Because in the end, we face disasters like everything in our lives—searching for meaning. What is left when we are denied a scapegoat or the specter of divine retribution? Our cries of "Why now?" or "Why us?" may never be satisfactorily answered. But if we can look beyond meaning, we'll find a question with profound moral implications: How, in the face of catastrophe, do we help ourselves and the people around us survive and make a better life? MICKEY SPILLANE WITH MAX ALLAN COLLINS

# The Last Stand

A BRAND-NEW NOVEL FROM THE MASTER

When legendary mystery writer Mickey Spillane died in 2006, he left behind the manuscript of one last novel he'd just completed: *The Last Stand*. He asked his friend and colleague (and fellow Mystery Writers of America Grand Master) Collins to take responsibility for finding the right time and place to publish this final book. Now, Spillane's millions of fans will, at last, get to read *The Last Stand*, together with a second, never-before-published work from early in his career, *A Bullet for Satisfaction*. Collins is the author of the acclaimed graphic novel *Road to Perdition* and its sequels, as well as the Nathan Heller mysteries.

“ Hammer, who was often fuelled by vengeance, was a new kind of character, a good guy who fought the bad guys with their own dark methods. ”

To celebrate the centennial of Mickey Spillane's birth, Titan Books is presenting two books from the master, one co-authored with Max Allan Collins. Here, Collins talks about Spillane's work and legacy:

Can you tell us how you came to be the Mickey Spillane's literary executor?

When I first started publishing suspense fiction in the early '70s, I became known as a defender of Mickey's work, which has always been as controversial as it is popular. I was asked to be a liaison between a fan convention and guest-of-honor, Mickey, in 1981. We hit it off and began doing projects together—anthologies of his own work and that of other mystery writers, a science-fiction comic book called *MIKE DANGER*, a documentary about his life and work (which is on the Criterion Collection DVD and Blu-Ray of *Kiss Me, Deadly*), and more. In 2006, a week or so before he lost his battle with pancreatic cancer, Mickey asked me to complete his Mike Hammer novel, *The Goliath Bone*, if he was unable to. I, of course, said yes—a terribly sad but incredible honor. Then he asked his wife Jane to gather the various unfinished manuscripts from his three home offices in South Carolina, saying, "Give everything to Max—he'll know what to do." For a lot of reasons, Mickey had numerous manuscripts in progress or that he'd started and never got back to. Jane Spillane and I became partners in Mickey Spillane Publishing, and so far, I've completed 10 Mike Hammer novels, two non-Hammer crime novels, and developed a western series (Caleb York for Kensington) from a screenplay that Mickey wrote for his friend John Wayne.

Spillane's books were incredibly popular during his lifetime. Why do you think his work was such a success?

He was a gifted storyteller, a natural, who began in the comic book field writing the likes of *Captain America* and *Submariner*. That gave him a real sense of writing simply but visually. Most important, as a veteran of World War II, he had a sense that returning servicemen would want a new kind of entertainment—that there had been a loss of innocence that

had to be recognized. He made his sleuth Mike Hammer a two-fisted one, and upped the ante on the sex and violence in the novels, breaking down a lot of taboos and barriers. Hammer, who was often fuelled by vengeance, was a new kind of character, a good guy who fought the bad guys with their own dark methods.

What is the legacy of Mickey Spillane?

Mickey was probably the first superstar author, as famous as his own work, his own character...in a way the Stephen King of his day. His main characters, chiefly Hammer, were motivated by emotion and personal issues, not just detached mystery-solving—Hammer hated hard and loved hard, and opened the door on a new kind of hero. Spillane and Hammer had countless imitators in the book and film fields in the '50s and '60s, including a fad of TV private eyes, like *Peter Gunn* and *77 Sunset Strip*. And that was just the start—Ian Fleming and James Bond were initially marketed as the British version of Spillane and Hammer. Every tough hero who has followed, from Shaft to Jack Reacher, flows from Mike Hammer. Hammer himself has been the subject of movies and TV series, most famously the classic film noir, *Kiss Me Deadly* and the various Stacy Keach-starring TV series.

Which is your personal favorite of Spillane's books?

Mine is *One Lonely Night*, but that's probably not a good place to start, because Hammer is at his most psychotic, and Spillane is at his most film-noir poetic, and you kind of have to build up to it. The first few books, like the very famous *I, the Jury* and *My Gun Is Quick*, are better introductions, or any of the Spillane/Collins collaborations, like the recent *Murder Never Knocks* and *The Will to Kill*.

What is the best advice Mickey Spillane ever gave you?

That writers should write the book that they themselves would like to read. The first audience is yourself. But Mickey was very connected to his readers—he was always very approachable, friendly, and down-to-earth. He said, "I don't have fans, I have customers." He also valued the first and last page of a book—he said, "The first sentence sells this book, the last sentence sells the next book."

Spillane's last completed book is *The Last Stand*. What is it about and why is it coming out now?

Mickey's final novel was somewhat atypical—it's a good-natured, modern-day western about a pilot, and a Native American who rescues him in the desert. While the hero is typically tough and male, he reflects the more mellow Spillane of the writer's final years. I loved the book, but felt it was at once something special and also not a good place to start where the posthumous material was concerned. What made sense was to begin with Mike Hammer, Spillane's "bread and butter boy" as he put it, and hold this particular story for an opportune time. The centenary celebration seems perfect. The book also contains a short novel from the early '50s, also previously unpublished, that is more typically Spillane, its hero a rogue cop.

You have been carrying on the Mike Hammer series since Spillane's passing. What can you tell us about *Killing Town*, the latest book?

There were several very, very early manuscripts in Mickey's files. Most of the Mike Hammer material was from the '80s and after. But a few were from the late '40s and early '50s, like *Lady, Go Die!* and *Kill Me, Darling* (follow-ups to *I, the Jury* and *Kiss Me, Deadly* respectively). One early manuscript was very special—it was a 60-page beginning for the very first Mike Hammer story, written around 1946! I held it for the centenary, because it makes a perfect companion piece for Mickey's final finished novel—his first Mike Hammer! It's unusual in that it takes place not in New York, but a Rhode Island town dominated by a fishing cannery, a corrupt community where freshly minted private eye Mike Hammer goes to bring \$30,000 stolen from the mob to the widow of an Army buddy. Like *I, the Jury*, World War II and the loyalty between soldiers is a key factor in *Killing Town*. Hammer is very tough in this one, rough and impulsive and young, and he falls for a most unusual woman—is she a femme fatale? You'll have to read *Killing Town* to find out. By the way, more Spillane/Collins collaborations are coming—the centennial isn't the end of the Spillane saga, just the start of the next century of it. **INGRAM**

In the tradition of *MY STROKE OF INSIGHT* and *BRAIN ON FIRE*, a powerful memoir about madness and recovery with unforgettable lessons about the brain and mind

As a deadly cancer spread inside her brain, leading neuroscientist Barbara Lipska was plunged into madness—only to miraculously survive with her memories intact. In *The Neuroscientist Who Lost Her Mind*, Lipska describes her extraordinary ordeal and explains how mental illness, brain injury, and age can change our behavior, personality, cognition, and memory. And she reveals what parts of us remain, even when so much else is gone.

**BARBARA K. LIPSKA** is the director of the Human Brain Collection Core at the National Institute of Mental Health, where she studies mental illness and human brain development.

**ELAINE McARDLE** is an award-winning journalist who has written for the *Boston Globe* and many other publications.
