This is a trade paperback original debut from Seventh Street Books (a mystery imprint from Prometheus). Gail

Siracusa
Delia Ephron
9780399165214, $26.00
Blue Rider Press

Ephron's new novel examines marriage and deceit in the lives of two couples, vacationing together in Siracusa, a town on the coast of Italy. This is a meditation on place and relationships—you'll develop a sense of foreboding along the way. A great read from one of my favorite authors.

Trent

Lucifer, Volume 1
Holly Black
9781401261931, $14.99
DC Comics

The tone of the series is similar to Sandman. Not only does it use some of the characters created in Sandman (Lucifer, most notably) and exist in the same universe, but the shape of the story is also the same. Is it worth your time? Absolutely, especially if you enjoyed Sandman, and/or like character-centered stories that tend toward the mythic. This volume feels more character-driven that plot-driven, but I have a feeling that the plot will thicken in the next issues. A very engrossing read.

LEAVE ME
GAYLE FORMAN

WHAT HAPPENS WHEN A GROWN WOMAN RUNS AWAY FROM HOME?

© Stomping Ground Photo

Forman is a bestselling, award-winning author of young adult novels. *Leave Me* is her first novel for adults. Her novel *If I Stay* won the 2009 NAIBA Book of the Year Award and was a 2010 Indie Choice Honor Award winner. The film adaptation was released in 2014. Forman is also a journalist whose articles have appeared in numerous publications, including *Seventeen*, *Cosmopolitan*, and *Elle*.

Maribeth's heart attack becomes a pivotal moment in her life. Have you had an experience that transformed the trajectory of your own life?

My life is, fortunately, less dramatic than the lives of my characters. So for me, it's less that one Dramatic Moment That Changes Everything, than a collection of moments, which build up over time, that eventually lead to a change, which also doesn't happen all at once. So in that way, I am more like actual people than book characters (though I very much hope my book characters are like actual people) in that change is usually gradually and hard-won. So, for example, Leave Me was inspired by my own health scare—a week of chest pains that had me convinced I was going to need bypass surgery. (My mom had her first bypass surgery at age 48, in spite of having no risk factors other than a family history of heart troubles.) Unlike Maribeth, mine turned out not to be my heart, but that week of chest pains created a domino effect that, over a period of years, transformed how my husband and I split the work of parenting our kids and how I went about getting support. It took years, and many other small catalyzing moments, but that was certainly a part of it. Bonus: I got a book idea out of it.

> There is a lot of me in Maribeth, and that was where it was the most challenging.

Many readers will identify with the relentless busyness of Maribeth's life as a wife and mom. She's constantly in motion and being busy seems to be a major part of her identity at the start of the novel. Is that a trait that you share? How do you break away from the everyday demands of life to inhabit your characters' worlds?

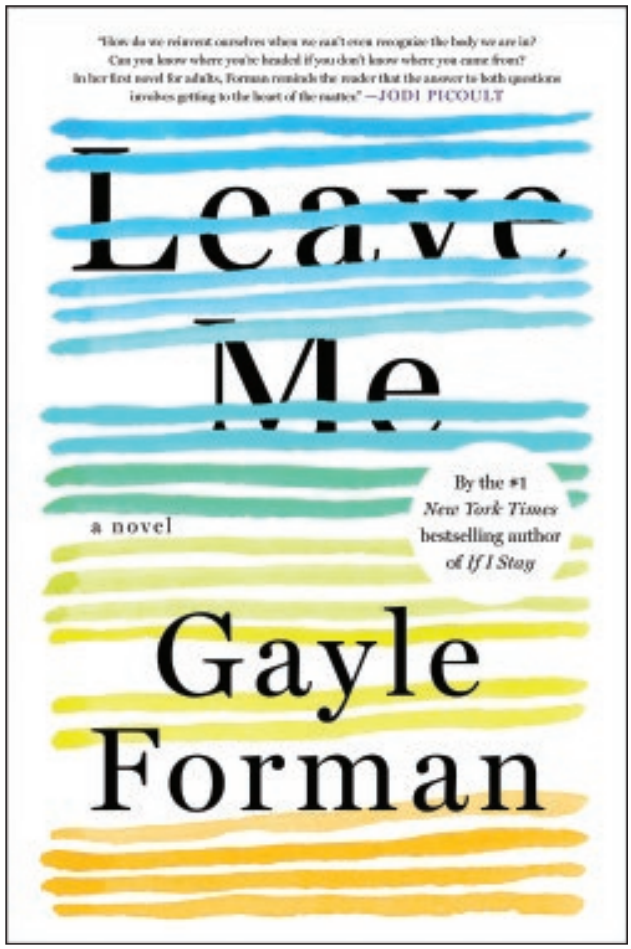
I have worked at home for years (as a journalist before I became a novelist) so when we had kids, there was never any question that I would stay home with them and write. But as my kids grew up and my work life got busier, what wound up happening was me shoving a full-time job into a 25-hour work week, a constant game of scheduling-jenga, as I tried to balance work needs (not all of which are writing) and travel with the cooking, carpooling, homework helping, field trip chaperoning, and the general functioning of the family. There have been stretches of time when I felt like every day was a marathon that I would finish, then wake up and do it all over again. So, short answer, yes I identify with Maribeth. I identify a lot.

Luckily, one antidote to all this is that writing is part of my work. Writing has always been a form of escapism for me. When I'm deep in a book, I'm lost in it, in that same satisfying way I'm lost in a book as a reader. So it is actually quite easy to break away from the demands of real life into my characters' worlds. The deeper I go, the greater the escape.

Your young adult novels have had wide crossover appeal, and they have attracted many adult readers as well. What made you choose to write a novel for adult readers? Did it bring new challenges?

I have never felt that I write for any particular age group or readership. I write first and foremost for myself. And I usually write about things that adult me is trying to figure out. It's just that for the last decade, the people who have come into my head to tell these stories have been between the ages of 16 and 24.

I got the idea for *Leave Me* years before I really wrote it, after I had those aforementioned chest pains and began imagining how in the world I would cope if I had to have heart surgery. But then it went back on the shelf. When I dusted it off and started writing it in earnest, I found that the original premise—how would a busy working mother cope with such a crisis?—took a backseat to what I really wanted to write about, which was marriage and family life. When I started writing *Leave Me*, particularly writing about the experience of parenting, I felt like I had wandered into an orchard I had never seen, and there were all these low-hanging apples.



9781616206178 / $26.95 HC / Algonquin Books

Of course the flipside of this is that *Leave Me* is probably the most personal book I have ever written. There is a lot of me in Maribeth, and that was where it was the most challenging.

What authors are on your personal must-read list? Any noteworthy fangirl moments?

The YA community is pretty tight so when I go bonkers over a book, I reach out to the author and fangirl away. This is actually how I became friends with some of my favorite authors: Jandy Nelson, Melina Marchetta, Jacqueline Woodson, Libba Bray, Nova Ren Suma, Ruta Septetys, Maggie Stiefvater, Jason Reynolds, Stephanie Perkins, and Matt de la Peña. I fangirl first, then force them to be my friends. I'm quite clever that way.

On the adult side, I will read anything Junot Diaz, Jennifer Egan, George Saunders, Rebecca Solnit, Curtis Sittenfeld, Dave Eggers, Ann Patchett, Megan Daum, and Brian Morton write. I just read Paul Beatty's *The Sellout* and now want to read everything he's written. I would will read anything Emily Nussbaum, Marjorie Ingall or Kate Harding write, including their grocery lists. If I met most of these people in real life, I would probably get all shy and hide in a corner.

What can readers expect from you next? Will you return to young adult fiction or are there more adult novels in your future?

Is that an either or question? I will return to young adult, and there are more adult novels in my future. I can do both. I am, after all, a Gemini. INGRAM

ELIN HILDEBRAND

HERE'S TO US

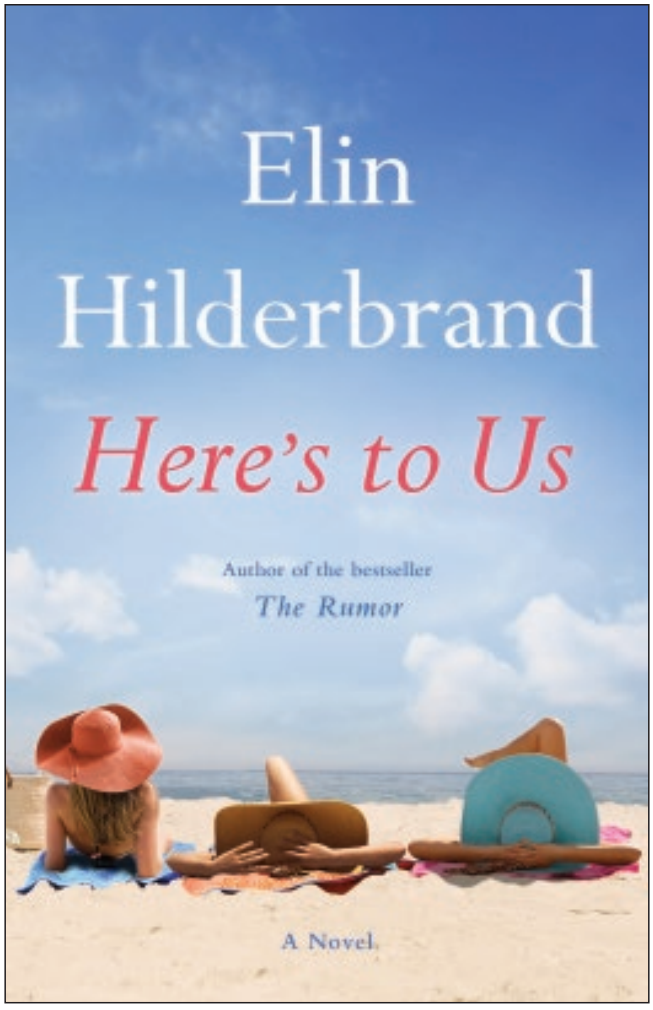
A GRIEVING FAMILY FINDS SOLACE WHERE THEY LEAST EXPECT IT

Photo Credit: Nina Subin

An emotional, heartwarming story from the *New York Times*-bestselling author about a grieving family that finds solace where they least expect it. Hilderbrand does her best writing on the beaches of Nantucket, as well as on the charming streets of Beacon Hill in Boston. She has three magical children who beg her not to sing along to the radio or dance in public. With more than 5 million copies of her books in print, Hilderbrand is "the queen of the summer novel" *(People)*. *Here's to Us* is her 17th novel.

It was her eleventh day back working as fire chief, although she tried not to think in those terms — eleven days back at work, forty-three days since Deacon had died. Instead, Angie tried to think of it as just another Friday night at the Board Room, the busiest night of the week. The world had been shocked silly by her father's death, and so Harv, the general manager—the only one with the stones to make the tough decisions—had closed the restaurant for a month. The front windows had been sheathed in black curtains, which Harv felt was appropriate. People—customers, fans of the shows, random New Yorkers—dropped off bouquets of flowers and hand-lettered signs, poems and stuffed animals, candles and crosses. When Angie saw these offerings, her throat ached. She wanted to cry, but the tears wouldn't come. She was bone-dry.

Angie had thought that the restaurant's popularity might wane or that it would veer off course like a ship without a captain. The Board Room was Deacon's creation and vision—from the wild-strawberry caprese salad, which was sourced from a boutique farm upstate and which he'd put on the menu two days before he died, to the gleaming copper tables and the caviar sets made especially for the restaurant by a descendant of one of the Russian czars, to the limited-edition Robert Graham shirts he liked Dr. Disibio to wear behind the bar. But bizarrely—or maybe not; Angie wasn't a great judge of human behaviour—the frenzy for reservations had more than doubled, which hardly seemed feasible. The wait for a table was six weeks already.



9780316375146 / $28.00 HC / Little Brown and Company

Angie was grateful to be busy. Bring on the weeds, ticket after ticket piling up: the pineapple-and-habanero shrimp, the smoked maple-glazed salmon, the "sexy" scorched octopus. The Friday-night pace had just ratcheted up from screaming breakneck to white-hot roller-coaster ride when Joel came up behind Angie and whispered in her ear, "I'm telling her tonight. I'm leaving, baby."

Angie grabbed hot tongs instead of cool ones and burned the bejesus out of her hand. She sucked the webbing between her thumb and index finger. "Can we talk about it later?" she asked.

Tiny, whose job it was to stoke and tend the cooking fire, keeping it at just the right level and heat for Angie at all times said, "Buzz off, Joel. We're in the middle of feeding people here."

He was telling her tonight. He was leaving.

Angie couldn't concentrate on work; her tickets piled up until she was buried and Julio, the expediter, swore at her.

Tiny said to her sotto voce, "Are you okay, Angie? Did Joel say something to upset you?" Tiny was a gentle giant, nearly seven feet tall. He had been the one in charge of taking Angie's emotional temperature since the restaurant reopened.

"I'm fine," Angie whispered.

Joel had said the words Angie had been waiting to hear since they had slept together after the restaurant's Christmas party, six months earlier. He was going to leave his wife and make his relationship with Angie official. Angie's emotions kited all over the place, soaring, zooming, catching wind, then dipping suddenly.

The night that Deacon died had been an unseasonably warm Thursday in May, one of those spring days that make people think about the joys of summer—strolling through the park, eating alfresco. Deacon had played hooky from work. He'd told Harv he was going up to Nantucket for a few days to fish and clear his head, which Angie had thought was a good idea. Scarlett had gotten fed up with Deacon's drinking and recreational drug use, and she flew back home to Savannah—for good, she said. She had pulled Ellery out of school and everything. Angie had reassured Deacon: they would be back. Scarlett was prone to tantrums—Angie secretly thought this was because she didn't consume enough calories to inspire reason—and besides, she had taken only two suitcases. That wouldn't last her more than two weeks, and it had already been ten days. Deacon had said, I messed up again, Buddy . . . marriage number three, and I torched it. It's all my fault. Everyone leaving has always been my fault.

> Angie had nearly said that marriage, the institution, seemed to have been invented in order to trip Deacon up, but she refrained.

Angie had nearly said that marriage, the institution, seemed to have been invented in order to trip Deacon up, but she refrained. He was extremely upset, which Angie, frankly, found strange. His marriage to Scarlett wasn't much more than a pretty shell. Every Tuesday night, when the restaurant was closed, Deacon had dinner with Angie because Scarlett went to bed at eight o'clock, and she didn't eat anything, anyway. But when you didn't want to spend your one night off with your wife? Well, that pretty much spoke for itself.

On that Thursday night, Joel had driven Angie home from work, as had become their routine. They'd had a drink after service with the rest of the staff, as usual, and then, as usual, Joel said good-bye first, and Angie followed five or six minutes later, meeting Joel on the corner of Sixtieth Street and Madison, where she climbed into his Lexus and they headed uptown to Angie's apartment. They made love quickly and then, after Angie poured them each a cognac, once again more slowly.

When Joel had risen to leave on that Thursday, Angie had clung to him and begged him to stay.

"Hey now," Joel had said. "You know I can't."

Joel lived in New Canaan, a place that Angie had never seen but that she imagined as hill and dale, a place where bunny rabbits nibbled the emerald grass in front of a white clapboard house with black shutters. She suspected that everyone in New Canaan was white. If Angie ever showed up at Joel's house on Rosebrook Road—and she fantasized about this all the time—the neighbors would think she was there to clean, or to clean them out.

"Please?" Angie said. She wasn't sure where the desperation was coming from. For twenty-six years, Angie had lived as an emotionally carefree, blissfully independent soul. She had worked in kitchens with men since she was eighteen and had slept with a few, but no one who mattered after ten o'clock the next morning. Angie had fallen in love with Joel Tersigni the instant Deacon hired him, two years earlier. Joel was handsome in a way that seemed custom tailored to Angie's tastes—the dark hair, the goatee, the sly smile, a voice with a smoky, seductive edge. He had a commanding, charismatic presence.

He knew exactly what to say to each person who walked in the door, whether it was Kim and Kanye or a school janitor from Wichita, Kansas, about to spend his life savings on dinner.

And after seven or eight cups of Dr. Disibio's double-dare dragon punch at their Mandarin-themed holiday soiree, Joel had led Angie by the hand into the dry pantry and charmed the pants right off her.

More than four months had passed. They had their "things" now: inside jokes, catchphrases, gestures. Every Saturday, Angie paid a Jamaican woman from the prep kitchen fifty bucks to do her cornrows, and every Thursday, Angie took them out and gathered her hair in a frizzed ponytail. Joel loved the ponytail. She was exotic to him, she knew, being half-black. Joel had grown up in Pigeon Forge, Tennessee; his parents had operated something called the Biblical Dinner Theater. Joel had escaped to Manhattan, which his parents thought of as a city of sinners.

"I have to go, Ange," Joel said. She loved the way he said her name, she loved that he called her Ange. The only other person who called her Ange, was her brother, Hayes. Angie gave Joel a long, luscious kiss that made him groan but would not, she knew, make him stay. After she closed the door behind him, she'd thought, I would give anything to make him mine.

Buck had called the very next morning.

Your father . . . ? Buck had said. Deacon . . . your dad . . .

Angie said, Yeah, what's up?

He went to Nantucket . . . , Buck said.

I know, Angie said. Harv told me. He went to fish. She had thought briefly of fresh striped-bass fillets marinated in a little olive oil and chili powder, thrown onto the hickory fire until just opaque, and then drizzled with lemon juice. Sheer perfection.

Angie, Buck said. He had a heart attack. He's dead.

Angie hung up without a word, as though Buck were a crank caller.

Her eleventh night ended without fanfare. Or maybe there had been fanfare and Angie hadn't noticed. The bandanna she had tied around her head felt like a crown of fire, her feet had turned to bricks in her clogs, and her stomach felt like a ball of rubber bands. She flung a salmon fillet onto the fire but was too distracted to savor the hiss, or the cloud of sweet maple smoke.

Joel was leaving. But maybe she had misheard him or misinterpreted the meaning of "leaving"?

"Are you okay?" Tiny asked. "I'm fine," Angie whispered.

Joel seemed edgy in the car, overhyped—he was probably coked up. He sometimes partook with Julio, the expediter, in the dry pantry, she knew, even though Harv had instituted a new, zero-tolerance drugs rule upon reopening. We're going to clean things up around here, he said. But, as Angie knew only too well, people were going to do what they were going to do.
