OBJECT LESSONS

Explore the hidden lives of ordinary things

"The Object Lessons series achieves something very close to magic: the books take ordinary—even banal—objects and animate them with a rich history of invention, political struggle, science, and popular mythology. Filled with fascinating details and conveyed in sharp, accessible prose, the books make the everyday world come to life. Be warned: once you've read a few of these, you'll start walking around your house, picking up random objects, and musing aloud: 'I wonder what the story is behind this thing?'"

BEHIND THE BOOK

BY KATE SUMMERSCALE

© EMILY COOMBES

The true-crime writer, a different kind of sleuth

My fascination with the story of *The Wicked Boy* began when I read a newspaper report from July 1895 about a horrific murder in East London. The body of a 37-year-old woman had been found rotting in the front bedroom of a small terraced house while her two sons, aged 12 and 13, played cards in a room downstairs.

When confronted by the police, the older boy, Robert, immediately confessed to having stabbed Emily Coombes to death 10 days earlier. He said that he and his brother, Nattie, had plotted together to kill her. Both were charged with murder and remanded in jail.

Intrigued by why the boys had killed their mother, I decided to seek out more information about the crime. There were scores of newspapers published in England in the mid-1890s, many of them digitized and easy to search, and their richly detailed reports helped me chart the movements of the brothers in the days before

and after their mother's death. Then I started to look further afield.

1. THE TRIAL TRANSCRIPT

Almost as soon as I began searching online, I found a digitized transcript of Robert's trial for murder at the Old Bailey. (Nattie had been discharged so that he could testify against his brother.) The transcript gave me a wealth of leads: names of the boys' neighbors, relatives, schoolteachers, employers; the pawnbrokers with whom they pledged goods; the owner of a coffeehouse at which they dined; the shopkeeper who sold Robert the murder weapon. It also supplied details of the mental instability in the family—Robert's as well as his mother's.

2. THE FOLDER OF EVIDENCE

At the National Archives in Kew, southwest London, I found transcripts of the witness statements

DOMESTIC SUSPENSE

BY AMY SCRIBNER

Till disaster do us part

Marriage is a challenge under the best of circumstances—devoting your life to one person for all of eternity, through better or worse, richer or poorer, driving through Midwestern storms and facing your husband's mistress in a foreign country.

OK, those last two examples aren't found in most wedding vows. But they are found in two new books that examine the darker corners of marriage. Call it the domestic suspense genre.

In *Siracusa* (Blue Rider, \$26, 304 pages, ISBN 9780399165214), the incomparable Delia Ephron introduces us to couples Michael and Lizzie and Finn and Taylor. The foursome is traveling to Italy together, along with Finn and Taylor's precocious daughter, Snow. These people, it must be said, have absolutely no business traveling together.

Michael, a semi-famous playwright who has struggled to recapture the magic of his early professional success, has been cheating on Lizzie with a waitress. Finn and Taylor barely speak other than to argue about Snow, an impressionable preteen who idolizes Michael. Finn and Lizzie, who used to date, still have an undeniable spark. Meanwhile, Michael tries to hide the fact that the woman he's sleeping with has unexpectedly turned up at their hotel in the rundown Sicilian town of Siracusa.

Add a whole lot of Italian wine to the inevitable illicit sex and bitter secrets, and a recipe for the perfect vacation this

cover story

Dive into a summer of suspense

Readers looking for a great escape from the everyday routine during their vacation will find it in five of the most offbeat thrillers to hit bookshelves this summer.

In her debut novel, *The Last One* (Ballantine, \$26, 304 pages, ISBN 9781101965085), Alexandra Oliva delivers a pulse-pounding psychological tale of survival. Oliva masterfully manipulates her characters and the setting, creating a mash-up of popular TV genres: "Survivor" meets "The Walking Dead."

FORGET-ME-NOT

Wendy Walker continues the theme of psychological suspense with her latest novel, *All Is Not Forgotten* (St. Martin's, \$26.99, 320 pages, ISBN 9781250097910). The thriller, which has already been optioned by Reese Witherspoon for an upcoming Warner Bros. movie, poses a question: What if you could

take a drug that would make you forget about a traumatic experience? The twists and turns of the story all lead up to a read you will not soon forget.

ALT-WORLD RENEGADE

With a timely novel focusing on race and equality, Ben H. Winters turns the issue of slavery on its head in *Underground Airlines* (Mulholland, \$26, 336 pages, ISBN 9780316261241). Winters handles the controversial topic with sensitivity, yet isn't afraid to ask some bold questions along the way.

ONLY THE LONELY

Iain Reid's debut novel, *I'm Thinking of Ending Things* (Scout Press, \$22.95, 224 pages, ISBN 9781501126925), is a tightly crafted,

taut thriller that readers can easily finish in a single sitting. Reid's straightforward voice firmly places the reader in the head of "the girlfriend" as she tries to cope with the psychological torment facing her in this dark and compelling novel.

HOW HE DIED

At first take, *Everything I Don't Remember* (Atria, \$25, 272 pages, ISBN 9781501138027) by Jonas Hassen Khemiri may seem like a daunting read. The novel swiftly hops from one narrator to another, from one time frame to the next, as it follows a decidedly unconventional story structure. But once readers dive in, they'll be in for one of the most engrossing novels of the summer.

Moore spent 10 years creating a 1,312-page novel of rich complexity, seldom attempted by those who want to write them. Two versions are available to spare the reader the heavy lifting—this visionary prose will prove to be heavy enough.

Five years later, Josiah, who had not been formally taught to read or write, began to type on his iPad profound paragraphs about God, science, history, business, music, strangers, and heaven. This unique story challenges predictable theology and inspires hope when there is none.

Bloom County Episode XI: A New Hope

Berkeley Breathed

9781631406997, \$17.99

IDW Publishing

The astoundingly popular and influential *Bloom County* strip ran from December 8, 1980, until August 6, 1989. It examined events in politics and culture through the viewpoint of a small town in Middle America, where children often have adult personalities/vocabularies and where animals can talk. The strip earned its creator a Pulitzer Prize in 1987. Without warning in 2015, Breathed began producing all-new strips of his series exclusively through his Facebook page. Following his bona fide recipe of humor and cultural/political commentary, Breathed continues to offer thoughtful, insightful views through his loveable characters. These strips have never before been available in print, until now. Followed by 600,000 fans on his Facebook page, *Bloom County* is as popular as ever. Do not get caught without this book on your shelves—your customers and patrons will be looking for it.

LSIG

This memorable book will inspire readers to rethink today's anti-government attitudes. Kennedy inspired the people to trust government. Later presidents, however, said government is the enemy, and the political system slowly became dysfunctional. The book pleads for a return to Kennedy's belief in the original concept of the Founding Fathers. 316 pp.

LADY COP MAKES TROUBLE

FURTHER ADVENTURES OF THE KOPP SISTERS

Photo Credit: Terrance McNally

Stewart is the author of eight books. This is the second installment in a series based on the remarkable true story of three sisters in the 1910s. She has also written six nonfiction books on the perils and pleasures of the natural world, including four *New York Times* bestsellers: *The Drunken Botanist*, *Wicked Bugs*, *Wicked Plants*, and *Flower Confidential*.

YOUNG GIRL WANTED—GOOD WAGE. Well-to-do man seeking a housekeeper who is matrimonially minded. Room and board offered. Reply to box-holder 4827.

I handed the newspaper back to Mrs. Headison. "I suppose you replied to the box-holder?"

She nodded briskly. "I did, posing as a girl who had just come to town from Buffalo, with experience not in housekeeping, but in dancing, and with aspirations for the stage. We can all imagine what he must have made of that."

I didn't like to imagine it, owing to the fact that a youthful aspirant to the stage lived under my own roof, but I had to admit that the trick worked. Sheriff Heath and I read the man's reply, which invited her to visit at her earliest convenience, and promised an offer of marriage if she proved worthy of it.

"Any number of girls have auditioned for the job and are still awaiting that offer of marriage," she sniffed. "I've seen them going in and out of his house. As my position is only advisory in nature, I'm under instructions to report any suspicious findings to the police chief, who sends an officer to make the arrest. But this man lives out here in Bergen County, so we're handing the matter over to you."

Belle Headison was Paterson's first policewoman. She was a slight figure with narrow shoulders and hair the color of weak tea. Her eyes were framed by brass-rimmed spectacles that recalled the inner workings of a standing clock. Everything about her seemed upright and tightly wound.

I was New Jersey's first lady deputy sheriff. I'd never met another woman in law enforcement. The summer of 1915 felt like a brave and bright new age.

Mrs. Headison had arranged to meet us at the train station in Ridgewood, not far from the man's house. We stood on the platform, under the only awning that cast any shade. In spite of the late August heat, it gave me a bracing thrill to think about going after anyone who would so casually advertise for a girl in the newspaper.

The sheriff took another look at the letter. "Mr. Meeker," he said. "Harold Meeker. Well, ladies, let's go pay him a visit."

Mrs. Headison took a step back. "Oh, I'm not sure what use I'd be."

But Sheriff Heath wouldn't hear it. "It's your case," he said cheerfully. "You should get the satisfaction of seeing it through to the end." Nothing made

him happier than catching a criminal, and he couldn't imagine why anyone else wouldn't feel the same.

"But I don't usually go along with the officers," she said. "Why don't you go, and Miss Kopp and I will wait here?"

"I brought Miss Kopp along for a reason," the sheriff said, ushering us both off the platform and into his motor car. Mrs. Headison stepped in with some reluctance and we drove through town.

On the way, Mrs. Headison told us about her work at the Travelers' Aid Society, where she helped girls who came to Paterson with no family or job prospects. "They get off the train and find no difficulty in making their way to the most disreputable boarding-houses and the tawdriest dance halls," she said. "And if she's a pretty girl, the saloons will give her supper and drink, free of charge. Of course, nothing comes free, but the girls aren't so easily convinced of that. It's their first time away from home and they've forgotten everything their mothers taught them, if they were taught anything at all."

Mrs. Headison, it developed, had been widowed in 1914. On the first anniversary of the death of her husband, a retired constable, she read

“ Belle Headison was
Paterson’s first policewoman . . .
Everything about her seemed
upright and tightly wound. ”

about New Jersey’s new law allowing women to serve as police officers. “It was as if John were speaking to me from the hereafter and telling me that I had a new calling. I went right to the Paterson police chief and made my application.”

Sheriff Heath and I attempted to offer our congratulations but she continued without taking a breath. “Do you know that he hadn’t even considered adding a woman to his force? I had to argue my case, and you can be sure I did. Do you know why he was so reluctant? The chief told me himself that if women start going about in uniforms, armed with guns and clubs, we would turn into little men.”

I cast the sheriff a look of horror but he kept his eyes straight ahead.

“I assured him that my position in the police department would be exactly the same as that of a mother in the home. Just as a mother tends to her children and issues a kind word of warning or encouragement, I would carry out my duty as a woman and bring a mother’s ideals into the police department. Wouldn’t you agree, Miss Kopp? Haven’t you become quite the mother hen at the sheriff’s department?”

I hadn’t thought of myself as a mother hen, but then again, I’d seen a hen peck an errant chick so sharply that she drew blood, so perhaps Mrs.

Headison was right. For the last two months, I’d been riding along anytime a woman or a girl was caught up in some criminal matter. I’d served divorce papers to an estranged wife, investigated a charge of illegal cohabitation, chased down a girl attempting to run away on a train, put clothes on a prostitute who was found naked and half-dead from opium in a card room above a tailor’s shop, and sat with a mother of three while the sheriff and his men ran through the woods looking for her husband, over whose head she had broken a bottle of brandy. The husband was returned to her, although she wouldn’t let him inside until he promised, in front of the sheriff, to bring no more drink into her house.

It would be no exaggeration to say that the moments I have just described were among the finest of my life. The prostitute had soiled herself and had to be washed in the card room’s dingy basin, and the girl running for the train bit my arm when I caught her, and still I assert that I had never been more content. Improbable as it may sound, I had, at last, found work that suited me.

LAURA MCHUGH

ARROWOOD

A GRIPPING NOVEL OF BURIED SECRETS

Photo Credit: Taisia Gordon

A haunting tale from the author of *The Weight of Blood* about a young woman's return to her childhood home and her encounter with the memories and secrets it holds. McHugh won both the 2015 International Thriller Writers award and a Silver Falchion award for best first novel, and was nominated for a Barry award and an Alex award. She spent part of her childhood in the town of Keokuk, Iowa, where *Arrowood* is set.

From Chapter One

I went upstairs not long after dinner and sat in bed with Grammy's scrapbook, the one she started when the twins were taken. She had given it to me my last summer at the Sister House. In addition to keeping a meticulous archive of newspaper clippings and information related to the twins' disappearance, she had written cards for them on their birthdays and holidays, checked in with the police station on a regular basis, and prayed for them daily without fail. She had never lost faith that the twins would be found alive.

According to the first newspaper clipping, from the Daily Gate City, Violet Ann and Tabitha Grace Arrowood, identical twins, age twenty-one months, were abducted by a man in a gold sedan from the front yard of 635 Grand Avenue at approximately four p.m. on September 3, 1994. Their sister, Arden Arrowood, age eight, was the sole witness, though a neighbor confirmed the sighting of a vehicle of similar description just prior to the incident. Police and volunteers searched for the vehicle and the children with no luck.

From the newspapers, I learned where my sisters had not been found: in the corn and soybean fields of Lee County; in

the Des Moines River or the Mississippi; in a pumpkin patch near the river bottoms; in the city dump; in a ravine at the edge of town; in the pond at Rand Park; in the factories along Highway 61; in any of the barges or docks or trains or rail yards. They were not in the cemeteries, the woods, the hunting cabins or duck blinds, or any of the boats, stores, homes, garages, or cars that were searched, including our own. Then Singer was located, and after an exhaustive search of his property and a lengthy investigation, he too was eventually added to the list of dead ends.

There were a few other persons of interest over the years, each a case of unsubstantiated jailhouse bragging, and a false confession that made the news before being discredited. Grammy kept a record of all related possibilities, no matter how remote. In 1999, the desiccated body of a child was reportedly found stuffed in a trunk in the attic of a Fort Madison home. It was quickly determined to be a hoax. Human bones were discovered along the Des Moines River in 2001 after a spring flood, but testing concluded that they were Native American and had probably been there for decades. There were sightings of the twins reported across the United States and in a few foreign countries, but nothing came of any of them. The television show *Unsolved Mysteries* approached my parents about doing a segment on the kidnapping, but Mom and Dad didn't want to participate. It was too painful, they said. It would be overly sensationalized for ratings, and likely wouldn't amount to anything.

Out of all the reported sightings, one had seemed especially promising. An elderly woman in eastern Nebraska saw two little blond girls wandering barefoot through a cornfield in the spring of 1997. They were holding hands, wearing pink nightgowns that were too small for them and too thin for the weather. The girls looked to be about five years old, as the twins would have been at the time. Officers searched the area and discovered an abandoned farmhouse in the woods beyond the field. Inside the house, a family of five was found huddled together, hiding in an upstairs closet. There were three children: one dark-haired boy and the two little girls that the elderly woman had seen. The family had left a commune in Missouri, and they were wandering. The parents claimed that the girls were not identical twins, but rather "Irish twins" who were close in age and looked very much alike. However, they could not produce birth certificates for the children, who had supposedly been born on the commune and had never visited a doctor or hospital or been enrolled in school. The girls resembled Violet and Tabitha, or rather, age-progressed images of the girls as they might look at five years old, and DNA tests were performed to see if they were the missing Arrowwood twins. They were not.

I'd found a lengthy thread on *Midwest Mysteries* where people speculated about my sisters' demise. Not everyone was convinced that Singer had taken them. Some people thought maybe they were alive and well, snatched by someone desperate to have children. Others suggested that they were being held captive and might one day escape, like kidnapping survivors Jaycee Dugard and Elizabeth Smart. Quite a few theories centered around their potential value on the black market: Where might fair-haired, fair-skinned identical twins fetch the highest price? Most people, though, assumed that Violet and Tabitha had been killed, their bodies dumped in the Mississippi soon after they were taken. It was the theory that made the most sense.

Would I have been able to discern a moment when my sisters ceased to exist? Was it possible that they were murdered minutes after touching my hand, and I didn't feel a thing, didn't sense that loss of connection? Dead or alive, they were gone, had been gone far longer than they had been with me.

9780812996395 / \$27.00 HC / Spiegel & Grau

I closed the scrapbook and placed it in the rolltop desk. Outside my window, in the darkness, pinpoints of light marked the dam and the power plant downriver. The crab apple tree in the backyard wavered in the wind. I left my room and moved slowly, noiselessly down the hall, though there was no need to be quiet; I was alone in the house. I opened the door to the twins' room and stepped inside, the humidity condensing on my skin. Moisture trickled down the windowpanes, dripping over the sills and splattering onto the floor. I lay down next to the cribs, shutting my eyes and taking myself back to the fever dream I'd had the day the twins disappeared, the one where they were home safe and everything was fine. I let the false sense of relief seep through me, thawing, temporarily, the frozen space inside. I felt something trail lightly across my face, delicate as a thread, and as I lifted my hand to brush it away, a soft exhalation of breath warmed my ear, a wordless whisper. My heart seized up and my eyes snapped open, searching the darkness. There was nothing there.

DC SUPER HERO GIRLS: HITS AND MYTHS

SHEA FONTANA

EMPOWERING GIRLS TO DISCOVER THEIR POTENTIAL

The newest original graphic novel from the DC Super Hero Girls line catches up with the students of Superhero High School as they find out that fun, friendship, and hard work are all parts of growing up! Fontana is a screenwriter for film and television, as well as a comic book writer. Her works include the first original graphic novel in the DC Super Hero Girls line, as well as TV shows *The 7D*, *Doc McStuffins*, *Whisker Haven Tales with the Palace Pets*, and more.

How did the DCSHG project resonate with you when you were first approached? What inspired you to sign on?

When DC and the animation team first contacted me, the project was a very big secret—they wouldn't even tell me what it was we were talking about! The initial interview was a bit of a game of 20 questions trying to decipher what exactly I was being interviewed about. The only information I had was that DC was involved, and I assumed it probably had

something to do with one of their female characters—and that was plenty to get me excited! DC has such a rich history with empowering female characters that it would have been an honor to write for any one of them. When I found out I would be writing for not just one but many of the major DC characters, I was thrilled. DCSHG is a unique opportunity to reach girls and to make girls a priority in the comic book world. But good stories are for everyone so we know boys will like it too and the webisodes already attracting a co-ed audience.

9781401267612 / \$9.99 PB / DC Comics

How does DCSHG differ from other animated series you've worked on? Any challenges or surprises?

It's been really fun and challenging to write DCSHG! There are so many facets to the types of content we're doing that I'm writing a lot of different genres with the same set of characters. The webisode shorts that we do are more comedy-centric while the DVD releases will be full-on action epics. The graphic novel is a whole new medium for me and that was a challenge to get to know the format. Though a lot of people have mentioned that it has been surprising to see how much young girls love big action, that was not a surprise to me because I was a girl who loved superhero action!

Since your background is mostly in animation writing, did you do anything special to prepare for this project?

I think the most important thing when getting into any type of writing is to read as much as possible. Not only did I read a lot of graphic novels, I also got my hands on some great graphic novel manuscripts. Studying the

manuscripts was very helpful in transitioning from the type of storytelling that I'm used to in animation to the type of storytelling that works in graphic novels. I was lucky to have a team of incredibly experienced editors at DC working on this graphic novel, and they provided invaluable help along the way.

What was your relationship with these DC characters before you started? Has this project changed how you view them?

I was a DC fan going in, but once I actually got into the thick of it, I realized how little I knew about the DC universe. It has been really fun to get into the comic material for all of our heroes and see how the characters have evolved through the years. Since we have created a new universe for the characters, we've had to play with some of characters' backstories and mythologies, but it has been a priority for us to remain true to the defining personality traits of each of our heroes. The core DNA for the characters remains intact while we explore what they may have been like as high-school students.

“The heart of everything we do is about encouraging girls to be the heroes of their own stories.”

What has it been like to reimagine these iconic characters as a group of teenage friends? What new possibilities or value do you think this adds to their stories?

It has been a blast to “hang out” (in my head!) with the teenage versions of these characters. Especially with characters like Harley and Ivy, who have been traditionally portrayed as villains, it’s been fascinating to imagine how they might be different if they had a group of supportive super hero friends while they were in high school. Like all teenagers, our characters are still exploring who they’ll become. Plus, they’re testing the boundaries of their powers, trying to determine what’s important to them, and figuring out where they belong.

Our core characters are so diverse and the teenage experience is so rich that there’s unlimited potential for stories in this world.

One of the guiding principles behind this series is to embolden young girls—and all kids—and inspire them to be their own heroes. How has this core idea shaped your writing of this project?

It has always been important to me to portray the DC Super Hero Girls characters as relatable, flawed, and genuine teenagers. I wanted to avoid making this diverse group of girls too perfect or god-like (even Wonder Woman is only half-god!). It’s hard for kids to see themselves in characters who are flawless. But when a character has hopes, dreams, and fears that reflect how kids really feel, it shows them that no matter who they are, they can make heroic decisions too. The message is that you don’t have to be perfect to be a hero. We all have the potential to make heroic decisions.

We also made it a priority to have a diverse and inclusive cast of characters so that young girls can see characters like themselves portrayed positively on the screen. Traditionally in entertainment, females are relegated to backseat roles like girlfriend, wife, sassy friend, or receptionist, and it was really important to us to show girls taking charge as the heroes of their own stories. Super Hero High is a co-ed school, and we show that girls can work together with boys who are their friends while being independent, strong characters who aren’t defined by their male counterparts.

The DCSHG retail line includes a lot of amazing interactive accessories that enable kids to connect with their favorite characters. Which DC Super Hero Girl do you most identify with?

It’s impossible to not bring pieces of myself to the characters I write, so they’re all at least a little bit like me. I’m probably most like Wonder Woman.

We’re both perfectionists about our work, tend to take on a lot, and have high expectations for ourselves. Also, I’m introverted like Ivy. There’s a storyline of one of the webisode shorts about Principal Waller encouraging Ivy to have more of a social life by joining a club. That’s straight out of my school experience when teachers would say things like, “Shea does well with her school work, but she just needs to come out of her shell.”

Which character do you most enjoy writing? Are any particularly challenging?

Our cast is so diverse that each character is exciting to write in a different way. Bumblebee has such a great energy and is usually the most empathetic of the characters. I get to exercise my wacky side with Harley who always has the punchline. Katana is just dripping with a modern coolness. Supergirl may be the strongest teen on the planet, but she’s still figuring out who she is, who she wants to be and how she’ll use her powers.

Batgirl may be the most challenging to write since she’s a tech genius and I am not. She’s the one who most often has me researching the proper terminology or what parts one might need to build a Batjet.

Do you have any opportunities to interact with fans? What type of feedback have you received from them so far?

It’s been so great to see how the fans are responding and the feedback from fans has been overwhelmingly positive. On Twitter, in the YouTube comments or at the Cons, the fans—both kids and their parents—have been very supportive of our vision for DCSHG. I’ve strived to create the series that I would have wanted to see when I was a kid and it’s so amazing to watch how kids light up when they see the characters.

What are your hopes for DCSHG moving forward?

The heart of everything we do is about encouraging girls to be the heroes of their own stories. My biggest hope is that reading the graphic novel and watching the animation will give kids that extra little boost of confidence, validation, or encouragement that will make just a little bit of difference as they grow up. I’d love to think that a little girl seeing Bumblebee and Batgirl’s tech smarts could be encouraged to pursue her dream of going into tech. Or that our scientist characters, like Ivy and Frost, would spark an interest in science. The entertainment we consume has the ability to inspire us and I hope that DCSHG will be part of the inspiration for a generation of real-life superhero girls.

Kamiakin Country: Washington Territory in Turmoil

by Jo Miles

The conflict between native tribes and Euro-Americans in Washington Territory, in the mid nineteenth century, isn't as famous as some of the later indian wars further inland. But at least 370 victims died violently between September 1855 and November 1858. The casualties included soldiers, chiefs, warriors, volunteers, civilians, non-combatants, women and children. The fighting raged from Puget Sound and the outskirts of Seattle to the Spokane region far to the east and the adjacent area that became northern Idaho.

The war began and ended in the Yakima Valley, home of the Yakama tribe and their legendary chief, Kamiakin – the best-known native leader in the Pacific Northwest during that period. A band led by Kamiakin fired the opening shots of the war and the chief was a major influence in the events that followed.

Murder in the Mile High City

By Linda Wommack with Linda Jones

Since Denver's founding in 1858 it has seen its share of violence and mayhem.

Murder in the Mile High City: The First 100 Years describes 42 riveting murder cases that made head-lines during Denver's first century. The cases range from the married socialite who was the cause of the death of one of two of her lovers—neither of whom was her husband—to a man who plant-ed a bomb on the United Airlines plane carrying his mother, giving him the dubious distinction of being responsible for the first airborne terror attack. This detailed survey of the sordid history of Denver's criminal past includes an examination of the role played by Denver newspapers in the capture and prosecution of those responsible for the capital crimes described.
