

# Large Print with Ingram

**What is Large Print?** Large print content is defined by a font size of 14+ (*depending on where in the world you're based*). The ideal is 16pt or larger.

normal font size      Large font size

10 vs 16

*Additional factors contribute to making large print content accessible to visually impaired readers.*  
**Learn more at: [ingramcontent.com/large-print](https://ingramcontent.com/large-print)**

**Why is Large Print important?** This format gives the reading experience to those who cannot read standard text editions, allowing for inclusivity and accessibility.

## Who can benefit from Large Print editions?

Readers who are visually impaired or have other reading difficulties.

*Globally, at least 2.2 billion people have a near or distance vision impairment\**

Students of all ages

Anyone who spends vast amounts of time in front of a screen

## How does Ingram Lightning Source support Large Print editions?

- The manufacturing process is the same as standard text editions
- We provide availability to more than 40,000 retailers and libraries around the world

**Top Selling Large Print categories:** Fiction, Religion, Business, Health & Self
